**Out-Patient Departments.**—Out-patient departments as here reported include those institutions where medical or surgical treatment may be obtained either gratuitously or for a nominal fee, but which do not receive resident patients.

Out-patient departments, or clinics, are operated independently or in connection with a hospital, medical college, university or other institution. The dispensary or clinic in connection with a hospital is generally the out-patient department of the hospital and treats patients who do not occupy beds in the hospital. Sometimes, however, the out-patient department is distinct from the hospital proper and is a separate institution with its own staff, etc. The extension of out-patient services to patients of modest means has far-reaching and beneficial effects. It may replace admission to a hospital, or may serve to secure necessary and beneficial hospitalization. As a general rule, out-patient departments are subsidized from the funds of the general hospital and separate records are not kept. Until a uniform system of accounting is adopted, it is not possible to give the average cost per patient.

**Subsection 2.—Mental Hospitals.**

Census statistics regarding the number of insane and feeble-minded in Canada were first made in connection with the decennial census of 1871, and general data were collected under the heading: "people of unsound mind". The Census of 1911 gave the number of insane and feeble-minded persons in Canada as 13,355, and a report for that year showed 9,671 patients in mental institutions. In 1921 figures concerning the number of patients in mental hospitals gave the number of insane as 21,516. Very little reliance can be placed on the figures before 1921, as the information was collected for patients in provincial mental hospitals only and did not include a large number of insane and feeble-minded in other institutions.

The Census of Mental Institutions of Canada was made a special feature of the Decennial Census of 1931, seven special schedules being used in the survey. Special features of the census were: separate classification of first admissions from re-admissions; classification of resident patients with particular reference to mental diagnosis; collection of data *re* ex-service men; urban and rural data; paroles; administrative personnel; values and acreages of hospital plants, etc.

The total number of institutions caring for the insane in 1933 was 60, including 29 public hospitals for the insane, 6 private hospitals for mental and nervous diseases, 5 public hospitals for feeble-minded children, 16 county asylums, 2 Dominion hospitals and 2 psychiatric hospitals for the insane.

Of the above 60 institutions, 58 reported as to staff and patients, and 55 regarding their finances. Statistics of capacity, staff and finances are presented by provinces in Table 5, and statistics of the movement of patient population in Table 6.

### Subsection 3.—Child-Caring Institutions, Refuges for Adults, Homes for Incurables, etc.\*

Although homes for incurables supply maintenance, nursing, medical and surgical aid to persons suffering from chronic and incurable diseases, the nature of the services given is such as to call for a special tabulation. Many hospitals for incurables care not only for those suffering from incurable diseases but also for the aged and indigent, and some even take care of orphans of both sexes.

In the case of general hospitals the service given both on economic and humanitarian grounds is to restore the patient to working efficiency in the community as soon as possible. The hospital or home for incurables looks after the patient whose affliction is of a more or less permanent nature incapacitating him from any possibility of earning a living. The movement of population is necessarily slow, discharges being generally due to death. The class of care given differs from that given in general hospitals, owing to the fact that the inmates tend to become institutionalized and need the care of a physician less frequently.

Summarized statistics of the 22 homes and hospitals for incurables reporting for 1932 will be found in Table 7.

## CHAPTER XXVII.—JUDICIAL AND PENITENTIARY STATISTICS.\*

**Canadian Criminal Law and Procedure.**—The system under which justice is administered in a State is never rigid. This is neither expedient nor indeed possible. The judicial system must grow and adapt itself to the requirements of the people, and the exact limits of the powers of the Dominion and provincial legislative bodies have required and will still require added definition by the courts.

The exclusive legislative authority of the Parliament of Canada extends to criminal law throughout the Dominion. This law is based on the common law of England, built up through the ages and consisting first of customs and usages and later of principles enunciated by generations of judges and introduced into Canada, as regards criminal law, by Royal Proclamation, 1763.

The judicial systems of the provinces as they exist to-day are based upon the British North America Act of 1867. Section 91 provides that "the exclusive legislative authority of the Parliament of Canada extends to...the criminal law, except the constitution of courts of criminal jurisdiction, but including the procedure in criminal matters". In each province (Sec. 92, ss. 14), the Legislature may exclusively make laws in relation to "the administration of justice in the province, including the constitution, maintenance and organization of provincial courts, both of civil and of criminal jurisdiction and including procedure in civil matters in those courts". The Parliament of Canada, may, however, (Sec. 101) establish any additional courts for the better administration of the laws of Canada.

It is frequently difficult to distinguish between "Law" and "Procedure". Procedure may be interpreted to relate simply to the organic working of the courts, but in a wider sense it may also affect the rights or alter the legal relations arising out of any given set of facts.

The mass of statutes resulting from the fact that, prior to Confederation, each province had its own criminal jurisprudence, caused great and increasing inconvenience. This led to the adoption of various consolidation Acts, the chief of which are the Criminal Law and Amendment Acts of 1869 and the Criminal Procedure Act of 1886. These Acts dealt exhaustively with procedure in respect of indictable and non-indictable offences, jurisdiction of justices of the peace, juvenile offenders, speedy trials, criminal law, schedules and forms, etc.

In the meantime various efforts had been made in England for the reduction of the criminal law of that country into the form of a code, culminating in a draft code, submitted to the Imperial House of Commons in 1880. The question then arose as to the desirability of codifying the Canadian law. Objections were raised that codification would arrest the development of the law and its gradual adaptation to the habits and wants of the community, and would substitute a fixed, inelastic system for one which possessed the power of adjustment to circumstances. But the advantages of a codification of the law of crimes were finally so manifest that

\*Revised by H. M. Boyd, Acting Chief Statistician on Criminal Statistics, Dominion Bureau of Statistics. The fifty-eighth Annual Report of Statistics of Criminal and Other Offences, for the year ended Sept. 30, 1933, is obtainable on application, from the Dominion Bureau of Statistics.

a bill founded on the English draft code of 1880, Stephen's Digest of Criminal Law, Burbidge's Digest of the Canadian Criminal Law, and on the Canadian statutory law, and introduced by the then Minister of Justice, Sir John Thompson, passed both Houses and became law July 1, 1893.

Crimes were formerly divided into two main classes: felonies, and misdemeanours. A felony was a crime involving forfeiture of property and of civil rights. The code has abolished this distinction and has classified offences as indictable and non-indictable. The term "indictable" means an offence which is triable on an indictment, that is to say the legal process by which a bill of indictment is preferred to, and presented by, a grand jury. An indictment differs from an information which rests only on presentation by the prosecuting authority, and properly from a presentment, which is an accusation originating with the grand jury. The word is sometimes loosely used, however, to include an information or presentment or both. Many cases of indictable offences are proceeded with, without a formal indictment. Furthermore certain cases triable on indictment may also be disposed of summarily by a magistrate, according to the severity or circumstances of the cases.

Non-indictable offences include cases usually dealt with summarily by police magistrates under the Summary Convictions Act, and comprise breaches of municipal regulations and other minor offences.

According to the provisions of the code, indictable offences are triable by jury but, in cases other than those listed below, the accused is accorded the right of election whether he be tried by jury, or before a judge without the intervention of a jury under the Speedy Trials Act, or before a magistrate under the Summary Trials Act. The jurisdiction of the magistrate is absolute, however, in certain cases and does not depend on the consent of the accused. Cases triable by jury without the consent of the accused are: treason, treasonable offences, assaults on the King, mutiny, unlawfully obtaining and communicating official information, taking of oath to commit certain crimes, seditious offences, libels on foreign sovereigns, piracy, corruption of officers employed in prosecuting offenders, frauds on the Government, breach of trust of public officers, municipal corruption, selling of appointments to any office, murder, attempt to murder, conspiracy to murder, accessory after the fact to murder, manslaughter, rape, attempt to commit rape, defamatory libel, combination in restraint of trade, for conspiring or attempting to commit, or being accessory after the fact to any of the above offences, also for bribery or undue influence, personation or other corrupt practice under the Dominion Elections Act. Also, where an offence is punishable with imprisonment for a period exceeding five years the Attorney General may require the charge to be tried by a jury.

In the province of Quebec a district magistrate has powers extending beyond those of a magistrate in any other province. He has the same jurisdiction as a county court judge in Ontario, and disposes of cases under the Speedy Trials Act, whereas the jurisdiction of the magistrates of other provinces extends only to the Summary Convictions Act and the Summary Trials Act.

Capital cases for the first twelve or fifteen years after Confederation included, besides murders, death sentences for attempts at murder, piracy, burglary, violation of females and levying war. The list of capital offences is now: levying war, murder,

piracy in cases of violence, rape, and treason. This is a drastic modification in the code from that which obtained a century and a half ago. In 1764, according to Blackstone, there were in England 160 capital offences on the Statute Book. It is stated that there was a strong feeling against the accompanying wholesale hangings and that judges and juries resorted to all sorts of subterfuges to evade the letter of the law. The work of practical reform and modification was slow, however, owing to the opposition of the House of Lords, but the days of the indiscriminating infliction of capital punishment ended with the passage of the Reform Bill in 1832, at which time forty kinds of forgery and many less serious offences were still capital crimes.

The statistics presented in the tables that follow, which are summarized from the Annual Report of Statistics of Criminal and Other Offences, are collected directly from the criminal courts in the different judicial districts throughout the Dominion. There are 154 judicial districts, including 4 sub-districts, divided as to provinces as follows: Prince Edward Island 3, Nova Scotia 18, New Brunswick 15, Quebec 23, Ontario 47, Manitoba 6, Saskatchewan 19, Alberta 14, British Columbia 8 and Yukon 1. The figures for the Northwest Territories are obtained from the reports of the Royal Canadian Mounted Police.

### Section 1.—General Tables.

The statistics relate to years ended Sept. 30, the latest report being for 1933. Beginning with the report for 1922, an enlargement of the classification of offences has been adopted, by which offences of juvenile offenders are compiled separately from those of adults. The term "indictable" applies to offences of adults only, similar offences committed by juveniles being termed "major" offences; similarly, "non-indictable" offences of adults are termed "minor" offences when attributed to juveniles. All current tables have been worked out for 1922 and subsequent years in accordance with the new classification, but a comparative historical table, giving the totals for different classes of criminal offences and minor offences, *including those of juvenile delinquents*, is here published (Table 1), together with a more detailed table for recent years (Table 2). In the consideration of the former it should be remembered that, while the criminal code undergoes little change over periods of time, the figures of summary convictions are influenced very much by the changing customs of the people, and are apt to increase with the increasing urbanization of the population. The most significant column of Table 1 is the figure of criminal offences per 100,000 of population. Attention may be drawn to the increase in the proportion of both criminal offences and minor offences to population in recent years, convictions for criminal offences having risen from 284 per 100,000 population in 1921 to 402 in 1932 and 411 in 1933, and convictions for minor offences from 1,732 per 100,000 in 1921 to 2,842 in 1932 and 2,799 in 1933.

It should be understood that the classification of offences in these general tables is irrespective of the mode of procedure. That is to say, the "criminal" cases include many indictable offences disposed of summarily under the Summary Trials Act. Hence any addition of indictable and major and minor offences, as shown in other tables, will not agree with the figures given in Tables 1 and 2. The object here is to show a broad historical record of criminal and minor offences respectively.

## Section 2.—Indictable Offences of Adults.

The progress of a community, from the moral point of view, is often judged by the number of convictions for indictable offences, as these are less affected than non-indictable offences by extraneous circumstances and the varying methods of law enforcement in different areas and in different years. However, in the

study of such statistics it is important to have comparable figures over a period of years, and these are set out by provinces for each year since 1911 in Table 4. Again, in Table 5 are shown the numbers of charges and convictions and the percentages of acquittals for the three years ended Sept. 30, 1931-33.

It may be stated that during the thirty-three-year period from 1900 to 1933 crimes increased from 4,853 to 32,942, or 579 p.c. The increase in the population during the same period was but 101.5 p.c., revealing that the increase in the crime rate was between five and six times that of the population.

**Classes of Indictable Offences.**—Indictable offences are divided under the Canadian system into six main classes, as follows: offences against the person, offences against property with violence, offences against property without violence, malicious offences against property, forgery and other offences against the currency, and other indictable offences. Details by offences are given in Table 6 and the details of the disposition of the charges in Table 7, which shows, with other information, that convictions of females numbered 3,477 in 1933 as against 3,202 in 1932 and 2,607 in 1931; as recently as 1924 the figure was only 1,826. Details as to occupation, conjugal condition, educational status, age, use of liquors, birth-place, religion and residence of those convicted of indictable offences are given in Table 8.

<sup>1</sup>Notwithstanding the fact that the United Church of Canada was completely organized in 1926, these persons still reported themselves as Methodists.

### Section 3.—Summary Convictions of Adults.

The following statistics relate to "non-indictable" offences committed by adults (persons 16 years of age and over) and disposed of by police magistrates or other justices of the peace, under authority of the Summary Convictions Act. Such convictions numbered 292,673 during the year ended Sept. 30, 1933, as com-

pared with 297,909 in 1932, 327,778 in 1931, 308,759 in 1930, and 193,240 in 1927. This marked increase in the past five or six years has been due almost entirely to breaches of traffic regulations, which have risen from 78,027 in 1926 to 186,848 in 1933, or from 46 p.c. to nearly 64 p.c. of the total of summary convictions. By sexes, the summary convictions appear as follows: in 1926, males 159,528, females 10,385; in 1930, males 292,557, females 16,202; in 1931, males 312,111, females 15,667; in 1932, males 281,318; females 16,591; and in 1933, males 275,229; females 17,444.

Summary convictions are given by provinces from 1911 to 1933 in Table 9, and details of these offences are given for the four latest years in Table 10.

**Convictions for Drunkenness.**—The number of summary convictions for drunkenness in Canada in 1933 was 18,910 as compared with 38,826 as recently as 1929. Maximum figures were attained in the years 1913 and 1914; during the War there was an appreciable reduction and since the War, while figures have fluctuated, they have not approximated former high levels. The decline in the last few years would appear to be at least partly due to the depression. Table 11 shows the number of convictions by provinces and years from 1911 to 1933.

**Offences against the Liquor Acts.**—Until the Great War, alcoholic liquors were generally sold under specified conditions by licensed hotels or licensed shops. Offences against the Liquor Acts usually represented a breach of the conditions of sale. During the War, prohibition was generally established but in more recent years the tendency has been for the Provincial Governments to take over the sale of liquor, to manage this sale through commissions and derive a revenue therefrom. Eight of the nine provinces now have their liquor commissions, Prince Edward Island being the only province in which prohibition prevails. In these circumstances, the convictions for offences against the Liquor Acts in 1929 reached the highest figure on record, *viz.*, 19,327, but have since fallen off to 10,489 in 1933. The number of such convictions in each year since 1911 is given by provinces in Table 12.

**Breaches of Traffic Regulations.**—Convictions for breaches of traffic regulations (Table 13), which at the beginning of the century numbered only 185 in all Canada have, as a result of the growing density and increasing speed of motor vehicles, become the largest element in the non-indictable offences. Such convictions reached a record total of 212,361 in 1931, when they represented 65 p.c. of the total of 327,778 (see Table 9) summary convictions. Breaches of traffic regulations, numbering 186,848 in 1933, were 64 p.c. of all summary convictions in that year.

The greatest percentage increases were recorded between 1908 and 1913. In this 5-year period total convictions increased from 1,270 to 16,000. For three years thereafter there was an abrupt decline, but beginning with 1917 another 5-year series of increases brought the total up to 51,788 in 1921; by 1924 the 60,000 mark had been reached, and recent years have witnessed a rapid increase to the high total of 212,361 in 1931, since when there has been a slight decline. The provincial distribution of the totals indicates that for the past five years Quebec shows the largest percentage of increase. Only Quebec and Alberta show increases for 1933 as compared with 1932, the remainder of the provinces showing decreases. For the year 1933, Ontario, which had 48 p.c. of the registrations of motor vehicles in Canada (see p. 738), had 49 p.c. of the total convictions; Quebec in the same year had 15 p.c. of the motor vehicles and 39 p.c. of the convictions; and Manitoba 6.3 p.c. of the motor vehicles and 5.9 p.c. of the convictions. In interpreting the figures in this way, however, it should be pointed out that traffic regulations are by no means uniform throughout Canada and no account is taken of the differences in the degrees of urbanization in the provinces. Thus, the above three provinces contain large centres of population, while in the Maritime Provinces, Saskatchewan and Alberta, with a lower degree of urbanization, convictions were low in proportion to the number of motor vehicles registered.

### Section 4.—Juvenile Delinquency.

Juveniles under 16 years of age to the number of 7,453 were found guilty of various offences in the year ended Sept. 30, 1933, as compared with 7,363 in 1932, 7,768 in 1931, 8,425 in 1930, 7,826 in 1929, 7,699 in 1928, 8,185 in 1927 and 7,831 in 1926. Of the 1933 total, 5,144 were convicted of "major" offences and 2,309 of "minor" offences, terms which correspond very nearly to "indictable" and "non-indictable" offences, as applied to adults. The offences proven against juveniles in 1932 and 1933 are shown by provinces in Table 14.

**Major Offences.**—In Table 15 are shown the various major offences for which juvenile delinquents were convicted in 1927 to 1933. It will be observed that theft, house- and shop-breaking with theft, and other wilful damage to property account for the great bulk of the offences; in 1933, 93 p.c. of the major offences were of this character.

**Minor Offences.**—Of the 2,309 juvenile delinquents found guilty of minor offences in 1933, 358 were convicted of breaches of municipal by-laws, 139 of disorderly conduct and disturbing the peace, 498 of disobedience or incorrigibility, 373 of trespass, 203 of truancy, 78 of vagrancy and indecent language and 660 of other minor offences.

### Section 5.—Police Statistics.

In 1933, 164 cities and towns, with populations of 4,000 or over, supplied police statistics to the Dominion Bureau of Statistics. These cities and towns, with an aggregate population of 4,438,810, had 5,087 policemen, who made 335,517 arrests and summonses. The total number of offences committed during the

year and made known to the police was 450,611, and the number of prosecutions was 308,504 or 68.5 p.c. of the known offences. Convictions secured in respect of these offences numbered 271,996, being 60.4 p.c. of the known offences and 88.2 p.c. of the prosecutions.

The number of automobiles reported stolen was 7,249, of which 7,185 were recovered. Of 13,495 bicycles stolen, 6,571 were recovered. The value of other lost articles reported to the police was \$2,305,852, of which \$1,008,959 or 44 p.c. was recovered.

**Section 6.—Penitentiary Statistics.**

The Penitentiaries Branch of the Department of Justice is charged with the administration of the various penitentiaries of Canada. Seven institutions are included in the system, the two largest of which are at Portsmouth, Ont., and St. Vincent de Paul, Que., while the other five are at Dorchester, N.B.; Prince Albert, Sask.; Stony Mountain, Man.; New Westminster (including Piers Island), B.C., and Collins Bay, Ont. During the fiscal year ended Mar. 31, 1934, the average daily population of these institutions was 4,358 and the total net expenditure for the year was \$2,554,890 or \$586 per capita, compared with 4,425 average daily population and \$2,629,213 total net expenditure or \$594 per capita for the year 1933.

The Piers Island Penitentiary, which is administered by the warden of the New Westminster institution, was provided in 1932 for the custody of members of the Doukhobor colony who were given three-year sentences. Those in custody at Piers Island Penitentiary on Mar. 31, 1933, numbered 570 and on Mar. 31, 1934, 531. The inclusion of this population in the general penitentiary statistics affects the comparability of the statistics of these years with those of former years. Details regarding the inmates at Piers Island are therefore given here, in order that, by deduction from the totals given in Tables 19 and 20, particulars comparable

with those of former years may be obtained regarding the population of ordinary penitentiaries. The ages of those in custody at Piers Island were:

| Fiscal Year. | Under 20. | 20-30. | 30-40. | 40-50. | 50-60. | Over 60. | Total. |
|--------------|-----------|--------|--------|--------|--------|----------|--------|
| 1933.....    | 31        | 168    | 97     | 92     | 66     | 116      | 570    |
| 1934.....    | 29        | 153    | 90     | 88     | 64     | 108      | 531    |

These people were of Caucasian race and of the 570 inmates in 1933, 231 were born in Canada and the remaining 339 in Russia; in 1934, of 531 inmates, 231 were born in Canada and 300 in Russia. Particulars regarding their conjugal state and sex were as follows:

| Fiscal Year. | Single. | Married. | Widowed. | Divorced. | Total. | Male. | Female. |
|--------------|---------|----------|----------|-----------|--------|-------|---------|
| 1933.....    | 88      | 435      | 43       | 4         | 570    | 292   | 278     |
| 1934.....    | 78      | 409      | 40       | 4         | 531    | 264   | 267     |

They were all total abstainers and adherents of the Doukhobor creed.

With the exception of the large number of women among the Doukhobors confined at Piers Island, all female convicts are kept in the penitentiary at Portsmouth, a suburb of Kingston, where special quarters and staff are maintained for their detention and supervision. A new building for this purpose was completed and occupied during 1934. Female convicts in custody there on Mar. 31, 1934, numbered 46 compared with 48 in 1932 and 27 in 1925.

Tables 18-20 give the more important penitentiary statistics as reported by the Superintendent. The number of convicts in penitentiaries was 1,865 in 1910, rose to 2,118 in 1916 and declined to 1,468 in 1918. After demobilization and the depression of 1921, the number of convicts rose to 2,640 in 1922, declined to 2,225 in 1924 and then increased to 4,164 in 1932. The increase was particularly rapid after 1929, amounting to 1,395 or 44 p.c. in three years. Excluding the Doukhobors at Piers Island the number of convicts in 1934, at 3,689, was lower than in any of the three preceding years. The number of paroles, as shown in Table 18, reached the high figure of 731 in 1934, including 16 from Piers Island.

Table 19 shows the ages of convicts by groups. If the Doukhobors confined at Piers Island be deducted from the groups in 1934, the remaining total of 3,689 includes 10.3 p.c. under 20 years of age and 47.8 p.c. between 20 and 30 years of age or 58.1 p.c. under 30. In 1914 there were 2,003 convicts of whom 9.3 p.c. were under 20 and 44.4 p.c. between 20 and 30, a total of 53.7 p.c. under 30. In 1923 there were 2,486 convicts and 11.3 p.c. were under 20, 46.6 p.c. between 20 and 30, or 57.9 p.c. under 30 years of age. The average age of convicts appears to be slightly younger since the War, but no definite trend is shown in the past decade, although there is a good deal of variation from year to year. Detailed statistics of the race, nationality by place of birth, conjugal state, sex and religion of convicts are presented in Table 20.

**Movement of Population of Penal Institutions.**—Penal institutions may be classified under four heads: penitentiaries, with slow turnover, since prisoners have long sentences; reformatories for boys and reformatories for girls, also with rather slow turnovers, but more rapid in the case of boys than in that of girls; and lastly common gaols, where the turnover is extremely rapid. If the average population for the year be the average of the inmates at the beginning and end

of the year, and the number discharged be the turnover, the turnover in 1933 was: in penitentiaries, 44 p.c.; in reformatories for boys, 218 p.c.; in reformatories for girls, 92 p.c.; in gaols, no less than 1,287 p.c. Thus, the average time spent in gaol was about four weeks. In dealing with these figures it must be borne in mind that the common gaol population changes from day to day and is partly made up of accused persons awaiting trial who may be liberated to-day or sent to a penitentiary or reformatory to-morrow.

### 17.—Population of Penal Institutions, 1931-33.

NOTE.—Penitentiary statistics until 1919 were supplied directly by each penitentiary and were for the calendar year. For 1920 and subsequent years they have been supplied by the Superintendent of Penitentiaries and are for the fiscal years ended Mar. 31. For other institutions, the figures are for the years ended Sept. 30.

<sup>1</sup>Apparent lack of balance between the beginning and end of the years 1931 and 1932 is due to revisions in each year resulting from the addition or closing of gaols, institutions or lock-ups in several places.

## CHAPTER XXVIII.—MISCELLANEOUS ADMINISTRATION.

### Section 1.—Public Lands.

Table 1, pp. 1108–1110, summarizes the character and disposition of the land area of Canada. Since there are still large areas which have been little explored and a much larger area not surveyed, and therefore not classified with regard to its possibilities, many of the figures given are estimates, although every care has been taken to consult the most competent authorities, Dominion and provincial, in a position to make such estimates. The continued extension of exploration and surveys will enable the governmental authorities to classify more exactly the lands within their jurisdiction.

In this table the areas of occupied and abandoned farms and of farm woodlots are taken from the Census of 1931. The totals of the land area of the provinces and territories are the areas as revised by the Topographical Survey, Dominion Department of the Interior, and agree with those appearing in the table on p. 7 of this volume, while the areas of Indian reserves are those reported by the Department of Indian Affairs. For other items, figures supplied by the provinces have been used wherever available; otherwise estimates from Dominion Government sources, chiefly the Forest Service, have been substituted. Between the totals of existing and potential agricultural lands (Item 14) and the totals of forest lands (Item 22) there is, of course, duplication to the extent of the agricultural lands under forest (Item 9). In view of the various sources from which the information is drawn there is satisfactory agreement in the relationship of the items.

#### Subsection 1.—Dominion Public Lands.\*

As stated on p. 1019 of the 1931 Year Book, the lands and natural resources lying within the boundaries of the provinces of Manitoba, Saskatchewan, Alberta and British Columbia, which had formerly been administered by the Dominion Government, were transferred to the administration of the provinces concerned at various dates in 1930.

Actual Dominion lands, therefore, now comprise: the Northwest Territories, including the Arctic islands and the islands in Hudson bay; Yukon; the National Park areas (see pp. 46–48), Indian reserves (see p. 1122), and historic sites in the different provinces throughout Canada; certain small and widely scattered parcels of Ordnance and Admiralty lands which have been held by the Dominion Government since Confederation and are rented, disposed of, or otherwise administered with

a view to bringing as many properties as possible to a state of revenue production; and, finally, public lands, at one time alienated, but which have been re-vested in the Crown in the right of the Dominion for various reasons, and upon which public monies have been spent.

The great bulk of the land areas under Dominion administration are those of Yukon and the Northwest Territories, amounting to about 936,680,000 acres or 42 p.c. of the land surface of Canada. The southern border of both Yukon and the Northwest Territories is 60°N. latitude. In Europe, Oslo, Stockholm and Leningrad are near this line, while about three-fourths of Norway, two-thirds of Sweden, all of Finland and a large proportion of Russia are north of it. In Table 1 a distinction has been made between those Dominion lands which are still freely disposable by the Dominion Government, and those which have been set aside as National Parks, under the National Parks Acts, or as Indian reserves, by Treaty. The total Dominion lands can be easily obtained by adding Items 27, 28 and 29.

Interest in this northern part of the national domain has increased in the past decade and the administration of these lands was placed under a separate branch of the Dominion Government, the North West Territories and Yukon Branch of the Department of the Interior, until 1931, when, on the transfer of the natural resources of Manitoba, Saskatchewan, Alberta and of the Railway Belt and Peace River Block of British Columbia to the respective provincial administrations, it was vested in the Dominion Lands Administration, now the Lands, Northwest Territories and Yukon Branch of the Department of the Interior. The Royal Canadian Mounted Police maintain law and order throughout the Northwest Territories and Yukon. More detailed particulars of the administration of each territory follow:—

**The Northwest Territories.**—The government of the Northwest Territories is vested in a Commissioner, a Deputy Commissioner, and a Council of five members with Ottawa as the seat of Government. The administration is carried on by the Department of the Interior through the Lands, Northwest Territories and Yukon Branch. The Territories are subdivided for administrative purposes into the provisional districts of Mackenzie, Keewatin and Franklin. The district of Mackenzie is, as yet, the most widely known and developed, trading posts and settlements being located all along the great stretch of inland waterways known as the Mackenzie system. Fort Smith, the headquarters of the Mackenzie district, is located on the Slave river north of the rapids. From this point there is uninterrupted navigation to the Arctic ocean, a distance of 1,369 miles and along the Arctic coast as far east as King William island.

The Administration has provided for a medical and nursing service, grants to the Anglican and Roman Catholic missions for education and hospitals, an

excellent mail service in which river steamboats and aeroplanes co-operate, motor roads, and a system of radio stations linking up Fort Smith, Resolution, Simpson, Norman and Aklavik with Edmonton, Alberta, and with Dawson and Mayo, Yukon.

The Department of the Interior has set aside certain areas, totalling over 338,916,000 acres, as preserves wherein only the Indian and the Eskimo may hunt. Officers in the field have made investigations into the conditions affecting musk-ox, caribou, and other forms of wild life. The Wood-Buffalo Park in the vicinity of Fort Smith covers an area of 17,300 sq. miles; it has been specially preserved for the protection of the buffalo. The Thelon Game Sanctuary to the east of Great Slave lake is, in its turn, the home of musk-oxen and caribou.

Included in the Northwest Territories are the Arctic Prairies, which are capable of supplying pasturage to large numbers of reindeer and caribou. Following investigation, 2,370 head of reindeer have been imported from Alaska and established on a government reindeer reserve in the vicinity of Kittigazuit, east of the Mackenzie River delta, containing an area of approximately 6,000 square miles. Under the favourable conditions which exist there, everything points to a considerable increase in numbers of the herd. Indications are that this experiment will result in a plentiful meat supply in the future.

The introduction of wireless communication and the development of reception has been a great boon to the isolated posts in the Mackenzie district. It enables traders and trappers to keep in touch with outside markets, and furnishes the inhabitants generally with news of current events.

In view of the great increase in the use of aircraft for mail and general transportation, the Administration is undertaking the development of landing facilities throughout the Mackenzie district. A winter landing field has been partially conditioned at Fort Smith and it is expected that it will be completed during the present year. For summer landing, it is proposed to install floating docks and other conveniences at Fort Smith, Resolution, Rae, Simpson, Norman, Aklavik, and Cameron Bay.

Exploratory work has been carried on throughout the Territories and local surveys made in all districts. Mineral prospectors are following in the tracks of the explorers, the aeroplane being used as the chief means of transportation. The Laurentian Shield, which has proved so rich in valuable minerals in Eastern Canada is continued into the eastern half of the Territories—that portion lying between Great Slave and Great Bear lakes and Hudson bay—and valuable discoveries have been made in this area. The rich native silver and high-grade pitchblende ores discovered during the last few years east and south-east of Great Bear lake are now under development. The oil wells near Norman on the Mackenzie river have

been in active operation since 1932, the bulk of the oil produced being shipped to mining interests operating at the eastern end of Great Bear lake. The agricultural land of the Territories lies almost entirely in the extension of the central plain defined by the Mackenzie valley.

It is known that there are many possible water-power sites throughout the Territories; these will no doubt be developed as a consequence of mining enterprises. Much of the upper Mackenzie valley carries a forest cover, which furnishes timber and fuel for local needs. Fishing, agriculture, mining and lumbering are engaged in to some extent, but the principal industry of the Territories is still the taking and export of furs. Many trading posts operate throughout the regions tributary to the Arctic coast, Hudson bay, and the great inland systems of waterways.

**Yukon.**—The Yukon Territory is administered by the Lands, Northwest Territories and Yukon Branch of the Department of the Interior as in the case of the Northwest Territories. The Comptroller, resident at Dawson, is the executive head of a local elective government of three members termed the Yukon Council, with jurisdiction over local matters. The Comptroller acts on instructions from the Governor in Council or the Minister of the Interior. Hospitals, schools, motor roads, and other amenities of modern life have been provided and, in addition to the overland telegraph line, wireless stations at Dawson and Mayo link up with the outside world through the Northwest Territories and Edmonton.

The route ordinarily taken to enter Yukon is from Skagway, Alaska, on the south, thence by the White Pass and Yukon Railway to Whitehorse, and by river boat to Dawson.

The use of aircraft for transportation purposes is increasing and during 1934 landing fields were conditioned at Whitehorse, Dawson and Mayo, a temporary licence being issued for the first-mentioned field. Sites for fields have been selected at other settlements in the Territory and included in the works program for 1935.

Yukon has produced over \$200,000,000 worth of gold since the Klondike rush, but the old placer claims, operated with cradle, pick and shovel, have given place to consolidated holdings worked with hydraulic dredges and other modern machinery. Silver, lead, copper, tungsten and coal are known to exist in paying quantities, and of late years the development of the silver-lead ores of the Mayo district has been one of the major factors in the growth of lode-mining enterprises. There is a hydro-electric installation of 13,200 h.p. in Yukon, but this is only a small proportion of the possible installation which will be developed as required.

Although fishing, agriculture (including fur-farming), and some lumbering are carried on as auxiliary industries, the future of Yukon is inevitably bound up with mining development.

### Subsection 2.—Provincial Public Lands.

In the Maritime Provinces, in Quebec, Ontario and British Columbia (except the Railway Belt and the Peace River Block) the public lands have been administered by the Provincial Governments since Confederation. Owing to the transfer of the natural resources to the Prairie Provinces and British Columbia, as outlined in Chapter XXVII, p. 1019 of the 1931 Year Book, public lands in all provinces are now under provincial administration. In Prince Edward Island, all the land is alienated and there are no provincial public lands.

Information regarding the amounts of disposable public land and the terms on which areas may be secured was regularly given from year to year for each of the provinces in editions of the Canada Year Book prior to 1933. However, since the revisions since that time have been of a minor character and as there is a heavy pressure upon space, it has been decided to refer those interested in securing provincial public lands to pp. 921-927 of the 1932 Year Book, and to the following officials of the respective provinces: Minister of Lands and Forests, Halifax, N.S.; Deputy Minister of Lands and Mines, Fredericton, N.B.; Deputy Minister of Lands and Forests, Quebec, Que.; Minister of Lands and Forests, Parliament Bldgs. Toronto, Ont.; Director of Lands, Department of Mines and Natural Resources, Winnipeg, Man.; Director of Lands, Department of Natural Resources, Regina, Sask.; Publicity Commissioner, Edmonton, Alta.; Deputy Commissioner of Lands, Victoria, B.C.

of occupied farms as reported in the Census of 1931. <sup>8</sup>Figures from the Forest Service, Department of the Interior. <sup>9</sup>Other than any included in Item 6. <sup>10</sup>Does not include National and Provincial Parks. Undoubtedly there are limited areas of lands in the Dominion and Provincial Parks suited to certain branches of agriculture, such as grazing. Since, however, these areas have been dedicated to the public for recreational purposes, primarily because of their scenic resources, such potential agricultural lands as they contain are precluded from being diverted to such uses. <sup>11</sup>This item is an approximation got by subtracting the sum of Items 2, 5, 9, 10 and 11 from Item 14. <sup>12</sup>Estimated by the Topographical Survey, Department of the Interior. Where this figure differs from the totals of Items 25-31, inclusive, the provincial estimates for Items 25, 26, 30 or 31 are not in line with total area as estimated by the Topographical Survey. <sup>13</sup>Dominion lands or provincial lands under forest include forested areas in the Dominion National and Provincial Parks. <sup>14</sup>This item is the total productive and unproductive forest area, by provinces, as estimated by the Forest Service of the Department of the Interior and given in square miles on p. 319 of this volume. Indian Reserves are not included in Item 18, but are shown separately as Item 19. Apart from this exception, Items 18 and 20 include all Dominion and Provincial lands under forest (Crown lands, National Parks, Ordnance lands, Military lands, reserves, etc.). <sup>15</sup>These lands include rock, open muskeg, burnt-over lands which are not re-stocking, and lands above timber line. All such lands are by no means economically barren, since in many cases they are sources of valuable mineral wealth or as in large areas in the National Parks, they have often a distinct economic value resulting from their scenic resources. Figures have been estimated by subtracting from the total land area the sum of agricultural and forest lands less the duplication involved (Item 9). <sup>16</sup>This item includes lands in process of alienation where such are not reported under Item 26, also where the figures are not available from provincial sources it is estimated by adding forest and agricultural lands alienated and allowing for urban and other areas alienated (Item 23). <sup>17</sup>From the 1930 Year Book, p. 961. This total is not the sum of the Items 1, 4 and 5, because of alienated lands in the form of grants to railway companies, grants to the Hudson's Bay Co., school land endowment, adjustments to road allowances as per footnote 3, etc. <sup>18</sup>No estimate available. <sup>19</sup>Figures are obtained from provincial sources. <sup>20</sup>In Yukon and N.W.T. areas aggregating 338,916,000 acres have been set apart by Order in Council as game preserves and sanctuaries in which only native Indians and Eskimos may hunt, but have not been permanently dedicated to this purpose by Parliament and are not, therefore, regarded as parks. <sup>21</sup>For the provinces indicated only. <sup>22</sup>There is very little unproductive land in New Brunswick. <sup>23</sup>This total is not the addition of the column items because the figures, being obtained from the various sources shown do not tie-in with one another. <sup>24</sup>Including the Wood-Buffalo Park (which, though reserved by the Dominion, is not administered by the National Parks Branch) and the Tar Sands Reserve. <sup>25</sup>That portion of the Wood-Buffalo Park in the Northwest Territories. <sup>26</sup>This is the forested area in the National Parks as estimated by the National Parks Branch, Department of the Interior. <sup>27</sup>Includes also other lands alienated since the Census of 1931 or, in the case of the Prairie Provinces, since the time of the original estimate (see footnote 14). These figures are approximations calculated for each province by deducting the sum of Items 6 and 15 from the sum of Items 25 and 26. In the case of Quebec a negative acreage is indicated. This would seem to suggest that reversions to the Crown since 1931 have more than offset any areas under this head.

## Section 2.—National Defence.\*

Before the outbreak of the Great War, the Canadian Militia consisted of a Permanent Force, which on Mar. 31, 1914, numbered 3,000 officers, non-commissioned officers and men, and an Active Militia, which at the same date numbered 5,615 officers and 68,991 non-commissioned officers and men. After the outbreak of war on Aug. 4, 1914, successive contingents of troops of all arms were recruited, equipped, trained and dispatched by the Dominion Government to England for active service. When hostilities ceased on Nov. 11, 1918, there had been sent overseas, for active service in the Canadian Expeditionary Force, about 418,000 officers, non-commissioned officers and men.† In addition to these, several thousand Canadians served with the Royal Air Force.

**Organization.**—Prior to 1922, three departments of the Canadian Government were concerned with the defence of Canada, *viz.*, the Department of Militia and Defence, the Department of the Naval Service, and the Air Board.

During the Session of 1922, the National Defence Act was passed, consolidating the Department of Militia and Defence, the Department of the Naval Service and the Air Board into the Department of National Defence. This Act became effective by proclamation on Jan. 1, 1923. Under it, there is a Minister of National Defence and a Deputy Minister of National Defence. To advise the Minister, a Defence Council has been constituted by Order in Council, consisting of a President (the Minister), a Vice-President (the Deputy Minister), and the following members: the Chief of the General Staff and the Chief of the Naval Staff. The Adjutant-General, the Quartermaster-General and the Senior Air Officer, Royal Canadian Air Force, are associate members. There is also a Secretary of the Council.

### Subsection 1.—The Naval Service.

The Naval Service of Canada was established by the Naval Service Act, 1910 (9-10 Edw. VII, c. 43), the main provisions of which were described in the 1910 Year Book, pp. xxvi-xxix.

The Department of Naval Service was amalgamated with the Department of Militia and Defence and the Canadian Air Board, to form the Department of National Defence, in 1922.

The Royal Canadian Navy and its Reserve Forces are under the direction of the Chief of the Naval Staff, who is a member of the Defence Council. The Service consists of:—

1. Royal Canadian Navy (permanent).
2. Royal Canadian Naval Reserve (non-permanent).
3. Royal Canadian Naval Volunteer Reserve (non-permanent).

Administrative and operational staff for all three Forces is provided from the Royal Canadian Navy.

**The Royal Canadian Navy.**—The Royal Canadian Navy has an authorized complement of 104 officers and 812 ratings. A large majority of the men of the R.C.N. are serving under 7-year engagements. A small proportion consists of specialist gunnery, torpedo, and engine-room ratings, lent from the Royal Navy (in December, 1934, this proportion amounted to 2 p.c.).

\*Revised by H. W. Brown, Asst. Deputy Minister, Department of National Defence.

†For the detailed expenditures of the Dominion Government on account of war appropriations in the fiscal years 1915-21, see the Canada Year Book, 1921, p. 798.

A proportion of the officers of the Royal Canadian Navy serves periodically in ships of the Royal Navy, to acquire experience in capital ships, cruisers, etc., and training courses are arranged for selected officers at the instructional schools of the Royal Navy to qualify in war staff, gunnery, torpedo, wireless and other duties. Courses for selected men in the gunnery, torpedo, wireless telegraphy and mechanical training schools of the Royal Navy are similarly arranged.

The ships of the Royal Canadian Navy are:—

H.M.C.S. *Saguenay* (destroyer—in commission).  
H.M.C.S. *Skeena* (destroyer—in commission).  
H.M.C.S. *Champlain* (destroyer—in commission).  
H.M.C.S. *Vancouver* (destroyer—in commission).  
H.M.C.S. *Armentières* (minesweeper—in commission).  
H.M.C.S. *Festubert* (minesweeper—in reserve).  
H.M.C.S. *Ypres* (minesweeper—in reserve).

Naval training establishments, comprising: naval barracks; gunnery drill sheds, with all modern appliances for teaching gun-laying, sight-setting, etc.; torpedo and electrical schools; parade grounds; and other equipment are maintained at Halifax and Esquimalt. Naval dockyards, with work shops, etc., for refitting and supplying necessary stores to H.M.C. ships, are also maintained at Halifax and Esquimalt.

**Royal Canadian Naval Reserve.**—The establishment of the Royal Canadian Naval Reserve is 70 officers and 430 men recruited from among sea-faring personnel. Officers have been appointed to act as registrars at Halifax, Charlottetown, Quebec, Montreal, Vancouver.

Officers and men of the Royal Canadian Naval Reserve attend naval training at Halifax and Esquimalt for 42 days for the first year of enrolment and for 14 days annually or biennially thereafter. They are permitted to volunteer for service afloat up to a maximum of six months during each period of enrolment. The period of enrolment in the Royal Canadian Naval Reserve is five years.

**Royal Canadian Naval Volunteer Reserve.**—The establishment of the Royal Canadian Naval Volunteer Reserve is 70 officers and 930 men, distributed as follows: Halifax (half company); Saint John (half company); Charlottetown (half company); Quebec (half company); Montreal (company); Ottawa (half company); Toronto (company); Hamilton (half company); Winnipeg (company); Saskatoon (half company); Regina (half company); Edmonton (half company); Calgary (half company); Vancouver (half company); Prince Rupert (half company).

Each company or half company is under the immediate command of an officer of the R.C.N.V.R., appointed as company commanding officer. The company commanding officer is assisted by other commissioned officers of the Force.

A petty officer instructor (a highly qualified ex-petty officer of the Royal Navy or of the Royal Canadian Navy) is employed at each company headquarters to give instruction to men of the company in gunnery, torpedo practice, seamanship and other naval subjects.

Each officer and man of the R.C.N.V.R. performs annually a minimum of 30 drills, of a duration of not less than one hour each, at company headquarters. In actual practice 40 to 50 drills have been performed annually by each member of the

company. Officers and men also attend from two to three weeks naval training annually at the naval bases at Halifax or Esquimalt, or at sea in H.M.C. or H.M. ships.

Officers and men who can obtain the necessary leave of absence are permitted to perform a maximum of four months voluntary service during each period of enrolment, and a large number have availed themselves of this opportunity of gaining extended naval experience under sea-going conditions. The period of enrolment and of re-enrolment in the R.C.N.V.R. is three years.

### Subsection 2.—Military Forces.

The Militia of Canada is constituted by the Militia Act. The Active Militia is divided into the Permanent and the Non-Permanent Militia.

**Permanent Militia.**—The Permanent Force consists of the following units:—

Cavalry.—The Royal Canadian Dragoons; Lord Strathcona's Horse (Royal Canadians).  
 Artillery.—The Royal Canadian Horse Artillery Brigade ("A", "B" and "C" Batteries); Royal Canadian Artillery (Nos. 1, 2 and 5 Heavy Batteries and No. 3 Medium Battery).  
 Engineers.—Royal Canadian Engineers (13 detachments and 1 field company).  
 Signals.—The Royal Canadian Corps of Signals.  
 Infantry.—The Royal Canadian Regiment; Princess Patricia's Canadian Light Infantry; The Royal 22e Regiment (a French-Canadian regiment).  
 Army Service Corps.—The Royal Canadian Army Service Corps (12 detachments).  
 Medical Corps.—The Royal Canadian Army Medical Corps (12 detachments).  
 Veterinary Corps.—The Royal Canadian Army Veterinary Corps (8 detachments).  
 Ordnance Corps.—The Royal Canadian Ordnance Corps (12 detachments).  
 Pay Corps.—The Royal Canadian Army Pay Corps (12 detachments).  
 Military Clerks.—The Corps of Military Staff Clerks (12 detachments).

The strength of the Permanent Active Militia is limited by the Amending Act of 1919 to 10,000, but at present the limited establishment is less than 3,800.

*Schools of Instruction.*—The Canadian Small Arms School is the only school which is an independent unit of the Permanent Force, but at all stations of the Permanent Force in Canada Royal Schools of Instruction are conducted.

**Non-Permanent Militia.**—The Non-Permanent Militia consists of:—

35 Regiments of Cavalry and Mounted Rifles.  
 70 Field Batteries, Canadian Artillery.  
 16 Medium Batteries, Canadian Artillery.  
 11 Heavy Batteries, Canadian Artillery.  
 3 Anti-Aircraft Sections, Canadian Artillery.  
 15 Field Companies of Engineers.  
 2 Fortress Companies of Engineers.  
 7 Field Troops of Engineers.  
 10 Divisional Signals.  
 2 Fortress Signal Companies.  
 7 Signal Troops.  
 22 Contingents, Canadian Officers' Training Corps.  
 123 Battalions of Infantry.  
 15 Machine Gun Units.  
 12 Divisional Canadian Army Service Corps.  
 51 Units of the Canadian Army Medical Corps.  
 11 Detachments of the Canadian Dental Corps.  
 11 Detachments of the Canadian Army Veterinary Corps.  
 11 Detachments of the Canadian Ordnance Corps.  
 12 Detachments and 1 Base Post Office of the Canadian Postal Corps.

The total establishment of the Non-Permanent Militia is 9,057 officers and 126,127 other ranks, a total of 135,184, distributed as shown in the following table:—

**Reserve Militia.**—In addition to the Active Militia, there is also the Reserve Militia, a framework designed to serve as a basis for contingent military organization. Drill and training are voluntary and entail no expense to the public.

The reserve formations of the Active Militia, as distinguished from the Reserve Militia mentioned above, comprise:—

The Reserve of Officers (general list).

Reserve unit for each active unit.

Reserve Regimental Depots (Cavalry and Infantry).

The reserve units of the Active Militia are intended for the purpose of providing for the organization of the officers and men who have completed their service in the Active Militia or who have otherwise received a military training. On completion of service in the Active Militia men are not posted automatically to reserve units. These units are recruited by specific enlistment.

**Military Districts.**—For the command, training and administration of the Canadian Militia, Canada is divided into 11 military districts, each under a commander assisted by a district staff.

**Militia Appropriations.**—The Militia appropriations for the six fiscal years ended Mar. 31, 1931-36, are shown in Table 3.

### Subsection 3.—Air Service.

Under the Act creating the Department of National Defence, the powers, duties and functions vested in the Air Board by the Air Board Act of 1919 are now administered under the direction of the Minister of National Defence.

The Royal Canadian Air Force is composed of the Permanent Active Air Force, the Non-Permanent Active Air Force, and a Reserve of Officers. The Royal Canadian Air Force administers and controls all military air operations and air operations for civil government departments. The duties of the Royal Canadian Air Force are as follows:—

- (a) To organize, train and maintain an air force for the defence of Canada.
- (b) To assist in the development of civil aviation by—
  - (i) Providing advanced flying training to civilian pilots, instructors and commercial pilots.
  - (ii) Initial development of air routes.
  - (iii) Technical supervision of airworthiness and inspection of aircraft belonging to private and commercial operators, and aircraft constructed or overhauled by aircraft manufacturing firms, and acting as consultant in matters pertaining to civil aviation generally.
- (c) The conduct of flying required to assist the several departments of the Dominion Government in the development and conservation of the country's natural resources, and other related services.

Permanent Active Air Force stations and units are located as follows:—

### Subsection 4.—Civil Aviation.\*

The Civil Aviation Branch is under the Controllor of Civil Aviation, who is directly responsible to the Deputy Minister. Its duties include the inspection of licences and registration of aircraft, air harbours, commercial and private air pilots, air engineers and air navigators. In addition to these duties, the location and construction of air routes and any matters connected with airship services are administered in this branch.

Civil aviation in the Dominion has had its chief development in connection with the exploration and conservation of the natural resources of the provinces, including forestry protection, air photography, and transport of men and supplies to remote points and mining districts. At the beginning of 1934, 17 regular air-mail routes were in operation. On Dec. 31, 1934, there were twenty air-mail routes in operation.

\*See also pp. 744-746.

On Dec. 31, 1934, there were certificates and licences in force as follows: private air pilots, 427; commercial air pilots, 405; air engineers, 461; registration of aircraft, 368; air-harbour licences, 101.

Rapid progress is being made in the development of the Trans-Canada Airway. The sections between Lethbridge and Edmonton and Lethbridge and Winnipeg are completed, including equipment for night lighting on the 27 intermediate aerodromes and radio. Four other intermediate aerodromes have been completed. Forty-three sites are under development under the unemployment relief scheme; landings have been made on nine of these. Sixteen further sites have been optioned or acquired, 5 others selected and 13 remain to be located.

### Subsection 5.—The Royal Military College.

The Royal Military College of Canada was founded in 1876 by the Honourable Alexander Mackenzie, then Prime Minister of Canada. Since its foundation, 2,430 gentleman cadets have been enrolled, and of this number 198 are now in attendance.

The maximum number of cadets who may be in residence at any one time is restricted by Order in Council to two hundred.

The Royal Military College has a very distinguished record in connection with the War. Of the 914 graduates and ex-cadets who served, 353 were granted commissions direct from the College, and 43 enlisted with a view to obtaining commissions; 156 ex-cadets were reported as killed in action, died of wounds, or missing. Ex-cadets of the College won the following honours and decorations: 1 Victoria Cross and 3 recommendations for the Victoria Cross, 106 Distinguished Service Orders, 109 Military Crosses, 2 Distinguished Flying Crosses, 62 other British decorations, 42 foreign decorations. Three Canadian and one Australian divisions were commanded by graduates of the College.

Ex-cadets who have served in the army, either in the regular forces or during the Great War, include 1 general, 5 lieutenant-generals, 17 major-generals, and 29 brigadier-generals or brigadiers. Eleven knighthoods have been conferred on ex-cadets for distinguished service.

The establishment of the College, as stated in the Act of 1874 (37 Vict., c. 36) was "for the purpose of imparting a complete education in all branches of military tactics, fortifications, engineering and general scientific knowledge in the subjects connected with and necessary to a thorough knowledge of the military profession, and for qualifying officers for command and staff appointments". In addition to the foregoing, the course of instruction is such as to afford a thorough practical and scientific training in civil engineering, surveying, physics and chemistry, English and French. Strict discipline, combined with physical training, riding, drill and outdoor games, forms part of the curriculum.

The College is situated on a beautiful peninsula, one mile from Kingston, with the Cataraqui river emptying into the St. Lawrence river at its junction with lake Ontario on the one side, and Navy bay on the other. The grounds cover about 500 acres. The buildings of the College proper are situated on the above-mentioned peninsula, comprising 60 acres. The remainder of the grounds, on which stands the historic Fort Henry, is at the disposal of the College for use as a training area. On the point of the College peninsula is situated Fort Frederick, built in 1837 when Kingston became the capital of Canada, the fort comprising a portion of the defences of Kingston. The College is under the supervision of the

Department of National Defence, and is inspected annually by an advisory board composed of leading Canadian citizens, both civil and military, which makes its reports and recommendations to the Minister of National Defence. The staff is composed of a commandant, a staff-adjutant, and a competent staff of civil and military professors and instructors.

A four-year course leads to a "diploma with honours", a "diploma" or a "certificate of military qualification". A number of commissions in the Canadian Permanent Force and the Royal Canadian Air Force, as well as commissions in the British Regular Forces, the Indian Army, and the Royal Air Force, are offered annually to graduates; and for cadets who desire to obtain commissions in the Royal Canadian Navy a limited number of naval cadetships are available each year to cadets who successfully complete the first two years of study and who were under 18 years of age at the time of entry into the College. To those graduates joining the British Army, the privilege of one year of seniority is granted in the British or Indian Armies. This has been arranged in order to equalize the seniority of graduates of the Royal Military College of Canada with those of the Royal Military Academy, Woolwich, or the Royal Military College, Sandhurst, since the courses at the latter institutions are shorter than the Canadian.

The principal Canadian universities admit recommended graduates to the fourth year of their civil engineering courses and to the third year of other engineering courses; and some of the universities admit graduates to the third years of arts and science courses.

The R.M.C. diploma is accepted by the Law Societies and Bar Associations of Ontario, Nova Scotia, Quebec, Manitoba, Saskatchewan, British Columbia and Alberta, as the equivalent of a B.A. degree for admission to the study of law. The Dominion Association of Chartered Accountants likewise accepts R.M.C. graduates as registered students under the same conditions as university graduates.

Entrance to the College is on a competitive basis. Candidates are required to pass a rigid medical examination, and to have obtained junior matriculation or an acceptable equivalent. Applications for admission to the College should reach The Secretary, Department of National Defence, Ottawa, before May 31 of each year.

### Section 3.—Department of Public Works.\*

Since Confederation and before, the constructing department of the Dominion Government has been known as the Department of Public Works. In 1879 the railways and canals were placed under the control of a new department, the building and maintenance of penitentiaries were transferred to the Department of Justice, the maintenance and construction of lighthouses to the Marine and Fisheries Department, and the smaller drill halls and armouries to the Department of National Defence. The work of the Department of Public Works is now divided into three principal branches, *viz.*, the Engineering Branch, the Architect's Branch and the Telegraph Branch.

**Engineering.**—The Engineering Branch conducts the construction and repair of wharves, piers, breakwaters, dams, weirs, bank and beach protection works; the improvement of harbours and rivers by dredging; the construction, operation and maintenance of dredging plant and the construction, operation and maintenance of

\*Revised by J. M. Somerville, Assistant Secretary, Department of Public Works.

graving or dry docks. The construction and maintenance of interprovincial bridges and approaches thereto, also the construction, operation and maintenance of bridges with movable spans on certain highways; hydrographic and topographic surveys and examinations which are required for the preparation of plans, reports and estimates; test borings for the purpose of ascertaining nature of foundations; the testing of cements and materials of construction; the licensing of international and interprovincial ferries, and the control of works constructed in or over navigable waters by authority of the Navigable Waters Protection Act (R.S.C., 1927, c. 140).

**Architecture.**—The Architect's Branch constructs and maintains Government buildings, post offices, customs houses, examining warehouses, quarantine stations, immigration and experimental farm buildings, military hospitals and telegraph offices. It also constructs armouries and drill halls and leases office accommodation as required for the various departments.

**Telegraphs.**—The Telegraph Branch has control of the construction, operation and maintenance of all Government-owned telegraph lines and cables. These lines are located in the provinces of Nova Scotia, New Brunswick, Quebec, Ontario, Saskatchewan, Alberta, British Columbia and Yukon (see also pp. 778-779).

**Graving Docks.**—The Department constructed five dry docks, as are shown in Table 4. The dock at Kingston, Ont., is under lease to the Kingston Shipbuilding Company, while the old Esquimalt Dry Dock was temporarily transferred to the Department of National Defence on Nov. 1, 1934. This transfer is to be effective until such time as the dock is commercially required, when it will be returned to the control of the Department of Public Works. The large dry docks at Lauzon, Que., and Esquimalt, B.C., can be divided into two parts and were built at a cost of approximately \$3,850,000 each. Under the Dry Dock Subsidies Act, 1910 (9-10 Edw. VII, c. 17), several docks have been subsidized by payments of 3 to 4 p.c. per annum on the original cost for a given number of years, as shown in Table 5.

**Expenditure and Revenue.**—Table 6 shows the expenditures and revenues of the Public Works Department of the Dominion Government, for the fiscal years 1929-34. For the fiscal year 1934 the expenditure was \$10,618,233, as compared with \$13,473,149 in 1933—a decrease of \$2,854,916, largely accounted for by reduced expenditures for harbours and rivers, dredging and public buildings.

## Section 4.—The Indians and Eskimos of Canada.

### Subsection 1.—The Indians of Canada.\*

The Indians of Canada whose affairs are administered by the Department of Indian Affairs number about 112,510, their numbers varying slightly from year to year. A small yearly increase is evident, and the popular notion that the race is disappearing is not in accordance with facts. Before they were subjected to the degenerating effects of European civilization and the devastating results of the many colonial wars, the numbers of the Indians were undoubtedly larger, but any reliable information as to the aboriginal population during either the French or the early British *régime* is non-existent, and there is no adequate basis for a comparison between the past and present aboriginal populations. An interesting sketch of the progress of the Indians of Canada since Confederation will be found in the Report of the Department of Indian Affairs, 1927.

**Administration.**†—Reserves have been set aside for the various bands of Indians throughout the Dominion, and the Indians located thereon are under the supervision of the local agents of the Department. The activities of the Department, as guardian of the Indians, include the control of Indian education, health, etc., the development of agriculture and other pursuits among them, the administration of their lands, community funds, estates, and the general supervision of their welfare.

\*Revised by A. F. MacKenzie, Secretary, Department of Indian Affairs.

†For an outline of the early administration, see p. 937 of the 1932 Year Book.

The local administration of the Indian bands on the reserves scattered throughout the Dominion is conducted through the Department's agencies, of which there are in all 120. The number of bands included in an agency varies from one to more than 30. The staff of an agency usually includes various officers in addition to the agent, such as medical officer, clerk, farm instructor, field matron, constable, stockman, etc., according to the special requirements of the agency in question. The work of the agencies is supervised by the Department's inspectors, each inspector having charge of a certain number of agencies. Expenditures upon destitute Indians are made by the Dominion Government, either from public funds or from the tribal funds of the Indians themselves.

The Indian Act provides for the enfranchisement of Indians. When an Indian is enfranchised he ceases to be an Indian under the law and acquires the full status of citizenship. In the older provinces, where the Indians have been longer in contact with civilization, many are becoming enfranchised. Great discretion, however, is exercised by the Government in dealing with this problem, as Indians who become enfranchised lose the special protection attached to their wardship, so that it is necessary to guard against premature enfranchisement.

**Treaties.**—In the older eastern provinces, the history of the Indians has been one of slow development with that of the community. In western Ontario, the Prairie Provinces and the Territories the situation has been different. There, the rapid spread of civilization made it necessary to take prompt and effective measures to protect the moral claims of the Indians, which are recognized by the Government. Accordingly, treaties were entered into with the Indians, whereby the latter ceded to the Crown their aboriginal title and interest in the country. In consideration of such cession the Crown agreed to set aside adequate reserves, make cash grants, provide per capita annuities, give assistance in agriculture, stock raising, hunting, trapping, etc., as particular circumstances might require, provide education for the Indian children, and otherwise safeguard the Indians' interests. These treaties have been made from time to time as occasion arose and as new territories were opened up. No treaty has been made with the Indians of British Columbia, but their welfare has received no less attention from the Government on that account.

**Government Expenditure.**—On Mar. 31, 1934, the capital of the Indian Trust Fund, which a year earlier had amounted to \$13,580,007, had increased to \$13,602,565. The amounts expended from the Consolidated Revenue Fund were as follows: voted by Parliament for the purposes of the Department, \$4,146,887; annuities by statute, \$233,135.

**Statistics.**—Statistical tables of population, school attendance, income and agricultural activities of the Indians in Canada follow. In Table 7 the populations for 1871-1931 are compiled from reports of the various censuses since Confederation, while the statistics and other information in the remaining tables are taken from the latest Annual Report of the Department of Indian Affairs. The Department of Indian Affairs takes a quinquennial census of Indians under its control, whereas census figures include all persons of Indian origin. The quinquennial census taken by the Department in 1934 showed a total of 112,510 as compared with 108,012 in 1929 and 104,894 in 1924, an increase of 7.3 p.c. in ten years. The details of the census of 1934 are given in the Annual Report of the Department for that year. The figures of the decennial census include some thousands of persons of Indian race who are living off the reserves as ordinary citizens of Canada.

<sup>1</sup>Census figures in the organized provinces and estimates for the rest of Canada.<sup>2</sup>Racial origin not taken in 1891; the figures have been taken from the report of the Department of Indian Affairs of that year.<sup>3</sup>Includes 34,481 "half-breeds".<sup>4</sup>The smaller Indian population of the Northwest Territories in 1921 is to be ascribed to the extension of the boundaries of Quebec, Ontario and Manitoba in 1912. This also accounts for the increase in the 1921 Indian population of these provinces.

**Indian Education.**—The educational work of the Department is now very extensive. In the fiscal year ended Mar. 31, 1934, a total of 345 Indian schools were in operation, including 79 residential schools for Indians with an enrolment of 8,596, and 256 day schools for Indians with an enrolment of 8,653 Indian pupils, also 10 combined public and Indian schools, with 199 Indian pupils enrolled. The total enrolment in the Indian schools has increased from 12,799 in 1915-16 to 17,448 in 1933-34 and the average attendance from 8,080 to 13,352 or from 63.1 p.c. to 76.5 p.c. of the enrolment. Continuation and high school work is now being taught in several of the day and residential schools. The amount spent on Indian education in the fiscal year ended Mar. 31, 1934, was \$1,620,130.

**Subsection 2.—The Eskimos of Canada.\***

The Eskimos are a littoral race, dwelling on the northern and northeastern mainland coasts and on islands in the Arctic archipelago and in Hudson bay. Though nomads, they never go far from the sea except to hunt caribou, the skin of which animal is required for clothing. They subsist largely on marine animals and fish. They inhabit chiefly the Northwest Territories, the Yukon Territory, and the Ungava district of Quebec. According to the Census of 1931 the total Eskimo population of Canada was 5,979, made up as follows: Northwest Territories 4,670, Yukon 85, Alberta 3, Manitoba 62, Quebec 1,159. The administrative care of those Eskimos outside of the organized provinces devolves upon the Department of the Interior, which has done much for them by providing medical attention, by setting aside wild-life preserves for the protection and conservation of game resources, by importation of reindeer, distribution of buffalo hides and meat and caribou skins for bedding and clothing, and the establishment of permanent stations in the eastern, central, and western Arctic, from which regular patrols are made.

## Section 5.—Pensions and other Provision for War Veterans.\*

**Pensions Division.**—This Division is responsible for the administration of returned soldiers' affairs under the Department of Pensions and National Health Act and the War Veterans' Allowance Act. It is also responsible by direction of the Canadian Pension Commission for certain administrative duties under the Pension Act and the Returned Soldiers' Insurance Act. The Representative of the Treasury is responsible for all payments under these Acts.

The Annual Report for the fiscal year ended Mar. 31, 1934, shows a decrease in the number of ex-members of the Forces who received in-patient hospital treatment, the number being 11,718 as against 13,343 in 1932-33 and 14,267 in 1931-32. The Department maintains eight hospitals, situated in the following centres: Halifax, Saint John, Ste. Anne de Bellevue, Toronto, London, Winnipeg, Calgary and Vancouver. The sheltered employment workshops are still operated at Hamilton, Montreal and Halifax and one shop by the Red Cross Society at Victoria.

One of the features of the activities of the Department is provision for the care of veterans in a departmental institution for pensioners who through age or infirmity are unable to care for themselves. The number of such cases shows an increase during the year, the total on Mar. 31, 1934, being 250 as against 213 a year previous and 198 on Mar. 31, 1932. The issue of orthopædic and surgical appliances has been maintained with a slight decrease. The number of pensioners, who have been granted relief was 12,735 in 1933-34 as compared with 14,368 in 1932-33, 12,303 in 1931-32 and 8,811 in 1930-31. The expenditure on relief in 1933-34 was \$1,912,563; in 1932-33, \$1,978,284; 1931-32, \$2,082,052; and 1930-31, \$907,010.

The provision under which the Department assumes responsibility in respect of accidents sustained by pensioners of 25 p.c. and upwards when engaged in industry has been continued. During the fiscal year under review, the number of claims was 180; in 1932-33, 179, and in 1931-32, 200. The expenditure was as follows: 1933-34, \$36,420; 1932-33, \$17,641; 1931-32, \$49,878. The expenditure is largely governed by the number of fatal and serious accidents.

The following is a summary statement of the manner in which the funds appropriated by Parliament have been dealt with and also sets forth the costs of administration and the adjudication of pensions. The cost of administration was 3-642 p.c.

**The Canadian Pension Commission.**—By c. 45 of the Statutes of 1933, the Board of Pension Commissioners for Canada and the Pension Tribunal ceased to exist; their duties were taken over by the Canadian Pension Commission which was formed by the Act referred to, and the personnel of the Commission was increased from three to not less than eight nor more than twelve. Eight members were appointed.

The Commission is responsible for the adjudication and awarding of pensions in respect of disabilities connected with military service and the awarding of pensions to the dependants of those who die. It operates under the authority of the Pension Act. The following table shows the number of pensions in force at the end of the

fiscal years 1918 to 1934, together with the annual liability. The large increase in disability pensioners from 1930 to 1933 inclusive was primarily due to the reinstatement on pension of those who had commuted their pensions from 1920 onwards. This restoration was under the authority of an amendment to the Pension Act in 1930.

**Veterans' Bureau.**—Pursuant to legislation passed in 1930, a Veterans' Bureau was organized as a branch of the Department and came into active operation on Oct. 1, 1930. The duties of the Bureau were set forth on p. 945 of the Canada Year Book, 1932. Briefly stated, the Bureau was created and is operated to assist applicants for pension in the preparation and presentation of their cases. There is a Chief Pensions Advocate with his staff at Ottawa, and Pensions Advocates have their offices in all the principal cities of Canada.

**War Veterans' Allowances.**—A synopsis of the War Veterans' Allowance Act, which came into force on Sept. 1, 1930, appeared on p. 946 of the Canada Year Book, 1932. The following statistics show the activities of the War Veterans' Allowance Committee for the fiscal years ended Mar. 31, 1933 and 1934.

## Section 6.—Soldier and General Land Settlement.†

In the session of Parliament of 1934 important legislation was passed by Parliament by which all lands administered by the Soldier Settlement of Canada are placed in exactly the same position with respect to the taxing laws of the provinces as lands occupied by farmers generally. This is a principle for which organized municipalities have been contending for some years and the Government felt that in fairness to other farmer taxpayers this principle should be conceded through appropriate Parliamentary action. The amendment to the Act was made retroactive to Jan. 1, 1933. Recognizing at the same time that there were many settlers on Soldier Settlement lands who were in arrears to municipal taxing authorities, the Government made provision in the estimates for 1934-35 for the payment of such taxes on lands occupied by soldier settlers up to the effective date of the above legislation.

At the end of the calendar year 1934, the number of farms under the jurisdiction of the Soldier Settlement of Canada was 21,268, made up of: soldier settlers, 10,892; civilian settlers, 5,783; British families (including those under the New Brunswick Family Scheme), 2,077; unsold farms on hand, 2,516. Of the settlers who have retired from the Scheme 5,684 have repaid their loans in full (2,792 by cash repayment, 2,892 by sale of properties).

The public investment as at Dec. 31, 1934, was \$55,851,821.59. There had been repaid to the Public Treasury from all sources \$54,064,046.15.

\*Revised by D. S. Drew, Officer in Charge of Returned Soldiers' Insurance.

†Revised by C. W. Cavers, Soldier Settlement of Canada.

Under the 3,000 British Family Scheme 3,346 families were accepted for settlement, of whom 1,503 families withdrew from the Scheme. Under the New Brunswick British Family Scheme 359 families were accepted for settlement and of these 103 withdrew.

Further Land Settlement activities of this Department included the Back-to-the-Land Movement inaugurated by the Minister in 1930 in co-operation with the railways, and the Relief Land Settlement Plan, which was inaugurated in 1932 by the Dominion Government in co-operation with the provinces and municipalities. Under the former plan a total of 15,589 families and 33,842 single men have been placed on the land.

The Relief Land Settlement plan was responsible for the placing of 3,948 families on the land up to the end of 1934. These families were selected from among unemployed who had previous farm experience and were in receipt of direct relief.

In connection with the investigations carried out by the field staff of the Soldier Settlement for the War Veterans' Allowance Committee, Board of Pension Commissioners, Department of Pensions and National Health, Department of the Interior and Department of Immigration and Colonization, a total of 22,170 cases have been dealt with from Jan. 1, 1932, to Dec. 31, 1934.

### Section 7.—Department of the Secretary of State.\*

The Department of the Secretary of State was constituted in its present form in 1873, through the merging of the previously-existing offices of the Secretaries of State for Canada and for the provinces. The Secretary of State is the official mouthpiece of the Government as well as the medium of communication between the Dominion and Provincial Governments, all correspondence between the Governments being conducted by him with the Lieutenant-Governors. He is also the custodian of the Great Seal of Canada and the Privy Seal as well as the channel by which the general public may approach the Crown.

The Secretary of State is also the Registrar-General, registering all proclamations, commissions, licences, warrants, writs, and other instruments issued under the Great Seal and the Privy Seal. He is further charged with the administration of the Boards of Trade Act, the Companies Act, the Canada Temperance Act, the Copyright Act, the Naturalization Act, the Patent Act, the Trade Unions Act, the Ticket of Leave Act, the Unfair Competition Act, and with the collection and tabling of Parliamentary Returns. The following information on these subjects has been secured in the course of administration.

**Charters of Incorporation.**—The number of companies incorporated under the Companies Act and amending Acts during the fiscal year 1933-34 was 531 with a total capitalization of \$175,239,320. Supplementary letters patent were granted during the year to 185 companies, 38 of which increased their capital stock by the aggregate amount of \$62,615,060; 61 decreased their capital stock by \$86,810,799; the remaining 86 were granted supplementary letters patent for various purposes, such as changing names, extending powers, etc. The total capitalization of new companies plus the increase of capital of existing companies amounted to \$237,854,380, partly offset by the above-mentioned decreases in capitalization totalling \$86,810,799.

\*Revised by E. H. Coleman, K.C., Under-Secretary of State, Department of the Secretary of State.

In Table 14 will be found the number and capitalization of companies incorporated during the years 1900-34.

**Naturalizations.**—The naturalizations effected under the Naturalization Act (R.S.C., 1906, c. 77) for the calendar years 1908-17 inclusive, were given on p. 594 of the Year Book for 1919. Since Jan. 1, 1918, the only method of obtaining naturalization has been under what is known as the "Imperial" Naturalization Act, which came into force on Jan. 1, 1915. This Act was known under the title of the Naturalization Act, 1914, until July 7, 1919, when it was repealed and the Naturalization Act, 1919, came into force. On July 1, 1920, the Naturalization Act, 1919, was repealed, and the Naturalization Act, 1914, was revived and amended under the title of the Naturalization Acts, 1914 and 1920. By an amendment passed by Parliament in 1923, the restriction by which persons of alien enemy birth were ineligible to receive certificates of naturalization for a period of 10 years after the termination of the War was removed, and at the present time any alien may apply for naturalization, regardless of his nationality. All these Acts have been consolidated in R.S.C., 1927, c. 138. Since Jan. 15, 1932, women British subjects on marrying aliens may by declaration retain their British nationality, if they have

not by marriage acquired their husbands' nationalities, and the wives of aliens no longer become British subjects through their husbands' naturalization. They must apply to the Secretary of State.

Table 15 shows the number of naturalization certificates issued to single persons or heads of families under these Acts during the calendar years from 1924 to 1933. The total numbers of persons naturalized during the fiscal years ended Mar. 31, 1933 and 1934, were 23,617 and 21,908 respectively, including (except as stated above) the wives and minor children of those to whom naturalization certificates were issued.

**Canada Temperance Act.**—Under Parts I and II of this Act, provision is made for the prohibition of the sale of intoxicating liquors in counties and cities. The last vote taken under these parts was in the County of Compton, Quebec, on April 28, 1930, in response to a petition for the repeal of the Act in that county. The vote resulted in favour of the repeal, which became effective on June 14, 1930. Part III of the Act relates to penalties and prosecutions, Part IV to the prohibition of the importation and exportation of intoxicating liquors into and from the provinces, while Part V enacts provisions in aid of provincial legislation for the control of the liquor traffic.

### Section 8.—Royal Canadian Mounted Police.

The R.C.M. Police is a constabulary maintained by the Dominion Government. When organized in 1873 it was known as the North West Mounted Police; in 1904, its name was changed to the Royal North West Mounted Police and in 1920, to the Royal Canadian Mounted Police.

The Force is controlled and administered by a Minister of the Crown (at present, the Minister of Justice) and may be employed anywhere in Canada.

It is primarily responsible for the maintenance of law and order in Yukon, the Arctic regions, the unorganized Northwest Territories and, for a variety of services, or the Dominion Government in all provinces of the Dominion. A large number of the Dominion departments utilize its services in investigations and in administrative work.

Amongst the many services rendered for the Dominion Government, the repression of the traffic in noxious drugs, the protection of Government buildings and dockyards, the enforcement of Dominion laws and the duties of the Preventive Service for the Department of National Revenue may be mentioned.

Under the R.C.M. Police Act, any province may enter into an agreement with the Dominion Government for the services of the R.C.M. Police to enforce provincial laws upon payment for its services.

In addition to the Dominion duties referred to, the Force at the present time has agreements with the provinces of Prince Edward Island, Nova Scotia, New Brunswick, Manitoba, Saskatchewan and Alberta, whereby the R.C.M. Police is responsible for the enforcement of the Criminal Code and provincial statutes in those provinces.

The Force is divided into 15 divisions of varying strength distributed over the entire country. The term of engagement is 5 years for recruits with re-enlistment for 1, 2, 3 or 5 years. The officers are commissioned by the Crown.

Recruits are trained at Regina, Sask. The course of training covers six months and consists of drill, both mounted and foot, and general instructions in police duties. The Force is distributed from Halifax to Vancouver and from Craig Harbour, on Ellesmere Island, in the far north, to the International Boundary between Canada and the United States.

The Force, which is commanded by a Commissioner whose Headquarters are at Ottawa, had a strength of 2,605 on Dec. 31, 1934, including masters and seamen employed with the Marine Section for the prevention of smuggling, distributed as follows:—

### Section 9.—The Civil Service of Canada.

**Organization.\***—Prior to 1882, appointments to the Civil Service were made directly by the Government. In that year, a Board of Civil Service Examiners was appointed to examine candidates and issue certificates of qualification to those successful at examinations. Appointments, however, were still made by the Government of the day.

The Royal Commission of 1907, appointed to inquire into the Civil Service Act and its operation, reported in favour of the creation of a Civil Service Commission. In 1908 this body was appointed; it consisted of two members appointed by the Governor in Council and holding office during good behaviour, but removable by the Governor General on address of the Senate and House of Commons. The Civil Service was classified into three divisions under the Deputy Heads of Departments, each division consisting of two subdivisions, each of these having its scale of salaries. The Commission was charged with the organization of and appointments to the Inside Service (at Ottawa), certain appointments to be made after open competition and others after qualifying tests, also with holding qualifying examinations for the Outside Service (the Service apart from Ottawa) to obtain lists from which selections could be made by the various Departments. All British subjects between 18 and 35 years of age who had resided in Canada for three years were eligible to try these examinations.

In 1918 a third member of the Civil Service Commission was appointed, and by the Civil Service Act of that year the principle of appointment after open competition was applied to the Outside as well as the Inside Service. The Act also provided for the organization by the Commission of the various Government Departments, for a classification of all positions in the Service on a duties basis, for the establishing of new rates of compensation, and for the principle of promotion by merit whenever consistent with the best interests of the Service. Provision was also made for preference, in the matter of appointment to the Service, to be given to qualified applicants who had served in the Great War.

**Civil Service Statistics.†**—From April, 1924, a monthly return of personnel and salaries has been made by each Department to the Dominion Bureau of Statistics, according to a plan that ensures comparability between Departments and

continuity in point of time. The institution of this system was preceded by an investigation back to 1912, the summary results of which are presented in Table 17.

During the war years, as will be seen from Table 17, the number of employees increased very rapidly, as a result of the enlargement of the functions of government and the imposition of new taxes, necessitating additional officials as collectors. Such new services as the Department of Pensions and National Health and the Soldier Settlement Board were also created. The maximum was reached in January, 1920, when 47,133 persons were employed; this number has since decreased to 41,346 in January, 1934. It may be added that, out of 40,469 in March, 1934, 1,151 in the Income Tax Branch and 2,266 in the Department of Pensions and National Health, or 3,417 in all, were engaged in services of outstanding importance which had no existence before the War. Further, an additional 10,842 persons were, in March, 1934, employed in the Post Office Department, performing services of an industrial rather than of a governmental type, and receiving their salaries out of the payments of the public for services immediately rendered, rather than out of taxation. During the last fiscal year the system of reporting non-enumerated employees of the Post Office Department was changed from a monthly to a quarterly basis, which accounts for the apparent abnormally increased expenditure for March, 1934, as compared with March, 1933 and previous years.

The statistics of numbers of employees and of salaries, now being secured monthly, are more comprehensive than those previously published, as a result of the inclusion of various classes of employees, largely "part-time", "seasonal" and "fees of office" employees, who were not included in the report published in 1925. These employees are largely in the Departments of Marine, Fisheries and Public Works. There remain, however, many persons in the "non-enumerated classes" whose numbers cannot be supplied monthly by the departmental officials but whose compensation is included in the monthly figures of expenditure on personnel, as shown in Table 18.

<sup>1</sup> Figures for January, 1925-34 are not comparable with those for preceding Januaries, because monthly records now being published include various classes of employees not included in the historical record for the 13 years 1912-24. In Table 18 will be found comparable figures of employees in the various Departments in March, 1933, and March, 1934.

Table 18, which gives statistics by Departments, with a further classification by principal branches where such are recorded, is included to give comparable figures for the latest months. In the month of March, 1934, the total number of employees in the enumerated classes was 40,469 as compared with 41,911 in March, 1933. The total expenditure on wages and salaries for all classes of employees for March, 1934, was \$8,256,702 as compared with \$6,648,595 for March, 1933. As already mentioned, the increase is due to the change to a quarterly system of reporting of the Post Office Department in 1934 from a monthly method in 1933.\*

\*Total expenditures on salaries and wages for all other Departments combined were \$4,155,567 in March, 1933 and \$3,879,962 in March, 1934.

**Section 10.—Harbour Commissions: Public Harbours and Harbour Masters.**

A description of the two methods of administration of the harbours in Canada, by a Commission in the one case, and by a Harbour Master operating under the direct supervision of the Department of Marine in the other, together with a list of the harbours which are under the Commission form of administration, with the year each individual Commission was created, was given at p. 1013 of the Year Book for 1930. No legislative action having as yet resulted from the report and recommendations of Sir Alexander Gibb and partners in the year 1931, following their study of the major Canadian ports as to desirable changes in the form of administration thereof, the harbour administration remains the same as described in the above-mentioned article.

**Section 11.—Race Track Betting.**

By an amendment to Section 235 of the Criminal Code, passed in 1920, the supervision of race track betting, under the pari-mutuel system, was placed in the hands of the Minister of Agriculture. The actual supervision is carried out by officers of the Royal Canadian Mounted Police and operated for the first time during the racing season of 1921. Statistics are available from the year 1924 and are shown in Table 19 for the Dominion as a whole, while Table 20 shows the operations by provinces for the year 1933.

## Section 12.—The Advisory Board on Tariff and Taxation.

The Tariff Board was constituted by Act of Parliament in 1931 (Chapter 55, 21-22 Geo. V.). It consists of three members, namely: Chairman, Vice-Chairman and Member, and a Secretary, all appointed by the Governor in Council. The present incumbents are the Honourable George H. Sedgewick, K.C., Chairman, Mr. Milton N. Campbell, Vice-Chairman, and Mr. Charles P. Hébert, Member. Mr. Hector B. McKinnon is Acting Secretary. The personnel of the Board was appointed in February, 1933. The first public sitting was held in July, 1933.

The constitution and duties of the Board are defined in two parts of the Act of 1931.

Under Part I, the Board makes inquiry into and reports upon any matter on which the Minister of Finance desires information, in relation to any goods which, if brought into Canada or produced in Canada, are subject to or exempt from duties of customs or excise. The investigation into any such matter may include inquiry as to the effect which an increase or decrease of the existing rate of duty upon a given commodity might have upon industry or trade, and the extent to which the consumer is protected from exploitation.

It is also the duty of the Board to inquire into any other matter or thing in relation to the trade or commerce of Canada which the Governor in Council sees fit to refer to the Board for inquiry and report.

In accordance with the provisions of Articles 10 to 15 of the United Kingdom-Canada Trade Agreement, His Majesty's Government in Canada has undertaken that, on the request of His Majesty's Government in the United Kingdom, it will cause a review, in accordance with the principle laid down in Article 11 of the Agreement, to be made by the Tariff Board of the duties charged on any commodities specified in such request.

The principle laid down in Article 11 of the Agreement is that protective duties shall not exceed such level as will give United Kingdom producers full opportunity of reasonable competition on the basis of relative cost of economical and efficient production, provided that, in the application of such principle, special consideration shall be given to the case of industries not fully established.

The Act provides that reports shall be made to the Minister of Finance and tabled in the House of Commons by him. To Mar. 31, 1935, the Board has reported on thirty-eight references. The principal commodities reported on were wool textiles; boots and shoes; jute yarns and twines; fruits and vegetables; hookless

fasteners (zippers); wooden doors; silver-bearing articles (toiletware); dextrines; rabbit skins; brass, copper and nickel-silver commodities; boiler tubes; skelp; cocoa mats and matting.

Part II of the Act empowers the Board to hear and decide appeals from rulings made by the Department of National Revenue with respect to fair market value of goods for duty purposes, erroneous appraisals, and the rate of duty applicable to any class of goods. Findings of the Board on Appeals are published in the *Canada Gazette*. To Mar. 31, 1935, forty-four Appeals have been registered. Decisions by the Board have been made for thirty-one. Nine were withdrawn after registration. For three the Appellants are not ready to proceed with hearing; one is awaiting decision of the Board.

### Section 13.—Liquor Control in Canada.

During the years 1916 and 1917, as a war policy, legislation prohibiting the sale of alcoholic liquors, except for medicinal and scientific purposes, was passed in all the provinces except Quebec, where similar legislation was passed in 1919. The prohibition extended to the sale of beer and wine except in Quebec. Native wine, however, could be sold in Ontario.

In aid of provincial legislation prohibiting or restricting the sale of intoxicating liquors, the Dominion Government in 1916 passed a law making it an offence to send intoxicating liquors into any province to be dealt in contrary to the law of that province. In 1919 this Act was changed to read that "on the request of the Legislative Assembly of a province a vote would be taken on the question that the importation and the bringing of intoxicating liquors into such province be forbidden". If the majority of those voting were found to be in favour of such prohibition, the Governor in Council was to declare it in force.

After the War the provinces continued under prohibition for varying periods. Plebiscites were taken from time to time to ascertain the will of the electorate as to whether the policy of prohibition, adopted as an emergency war measure, should be continued. During 1921 Quebec and British Columbia discarded the existing prohibition laws and adopted the policy of liquor sale under government control. The same course was followed by Manitoba in 1923, Alberta in 1924, Saskatchewan in 1925, Ontario and New Brunswick in 1927 and Nova Scotia in 1930. Thus Prince Edward Island is the only province still adhering to a policy of prohibition.

The provincial Liquor Control Acts have been framed to conform to conditions peculiar to the regions where they are in force and no two are exactly alike. The salient feature of all is the establishment of a provincial monopoly of the retail sale of alcoholic beverages, with the practical elimination of private profit therefrom. Partial exception is made in the retail sale of malt liquor by brewers, which certain provinces permit while reserving regulative rights and taxing such sales heavily. In all the provinces, however, spirits may be bought only at government liquor stores. The provincial monopoly extends only to the retail sale of alcoholic beverages, the manufacture being still in private hands but under the supervision of the Liquor Boards or Commissions. The original Liquor Control Acts have been modified from time to time as deemed advisable. Brief summaries of the legislation are given in the Bureau's Annual Report on the Control and Sale of Liquor.

<sup>2</sup>In Manitoba and Alberta the value of beer sales is not given but the beer taxes paid to the Boards are tabulated below. In this connection it should be noted that the Board also pays the beer tax on its purchases from the brewers and the beer sales of the Board are included in the total gross sales shown above.

**Sales by Liquor Control Boards.**—Data on gross sales, other revenue and net profits of the Provincial Liquor Boards, are tabulated in Table 21. In connection with the figures on gross sales it is essential to note that for Quebec, Manitoba and Alberta, the sales of beer made directly by the brewers to the licensees are not included. The proceeds from such sales do not pass through the Boards, but the purchasers must pay through the brewers to the Boards a tax equal to 5 p.c. of the purchases in the case of Quebec, 12½ cents per gallon in Manitoba, and 15½ cents per gallon in Alberta. For the latter two provinces it is possible to calculate from the taxes the gallonage of beer sold but the corresponding values are not available. For Quebec the quantity and value of sales are published by the Liquor Commission, as shown in the footnote to the table.

Further, it should be pointed out that the values as given for Quebec, Manitoba, Alberta and British Columbia do not represent the sales values to the final consumers, as in these provinces the sale of beer by the glass is permissible. Of course, all the liquor sold in any province is not consumed within the province. The tourist traffic is a very important factor in this connection.

All the revenue resulting from the Liquor Control Acts is not paid to the Liquor Boards. In certain provinces, permit fees are paid directly to the governments and do not pass through the Board. Table 21 further indicates the total revenue accruing to the governments through the control of liquor sales.

The reports of the Boards do not in all cases show the quantities of liquors sold; in comparing values for a series of years or between provinces it should be borne in mind that price variations may be an important factor.

**Apparent Consumption of Liquor in Canada.**—It is not possible to obtain accurate figures on Canadian consumption of liquor. Except in Nova Scotia, Quebec, Ontario and Alberta, the Liquor Boards do not publish figures to show sales on a gallonage basis, and even were such data on quantity sales available for all provinces they would not necessarily represent Canadian consumption. For example, our great tourist traffic must be considered, since it is likely that the quantities carried away by individual tourists would reach a considerable amount. Further, there is no definite information regarding the illegal traffic in liquor, though inquiry has revealed that such illicit business has reached fairly large proportions.

In Tables 22, 23 and 24 an attempt has been made to indicate separately the apparent consumption in Canada of spirits, malt liquors and wines. Obviously, these computations are subject to error for the reasons mentioned above, and also because no consideration has been given to increases or decreases in the quantities held in stock by the Boards or by licensees. For example, owing to exceptionally favourable conditions abroad, the Liquor Boards may in certain years buy heavily to replenish stocks or create reserves; such purchases would unduly weight the apparent consumption figure for these years. The figures in these tables have been arrived at as follows:—

*Spirits.*—Practically the total production of spirits is placed in bonded warehouses whence it is released for various purposes. The quantities shown as “entered for consumption” are released from warehouse, duty paid, presumably for consumption for beverage purposes in Canada. However, part of these may be exported. The supply of spirits available in Canada for home consumption or for export must be the sum of the quantities shown under (a) entered for consumption; (b) im-

ports; and (c) exports in bond, and if the total domestic exports and re-exports of imported goods are deducted from this figure the remainder indicates the apparent consumption in Canada.

*Malt Liquors.*—Only a small part of the output of malt liquors is placed in warehouses. The available supply is, therefore, made up of (a) production; (b) changes in warehouse stock; and (c) imports, and by deducting the domestic exports and re-exports of imported goods from this total supply, it is possible to obtain a figure to show the apparent consumption in Canada.

*Wines.*—The apparent consumption of native wine is obtained by dividing the rates of excise tax into the total tax collections. This is believed to furnish a better measure of consumption than the method formerly used, *i.e.*, to subtract the exports from the production, since part of the product is not consumed in the year of production but is placed in storage for maturing. The apparent consumption of imported wines is arrived at by deducting from the imports into Canada, the re-exports of foreign supplies.

**Section 14.—Other Miscellaneous Administration.**

In previous editions of the Canada Year Book this chapter has been brought to a close with outlines of Dominion Government administration as follows:—

The International Joint Commission.  
The Geodetic Survey of Canada.  
The Topographical Survey.  
The Dominion Observatories.

No material change has taken place in the functions of these organizations and the reader is referred to pp. 1014-1017 of the 1930 Year Book for this information.

# ORGANIZATION CHART OF THE

# ON BUREAU OF STATISTICS

## CHAPTER XXIX.—SOURCES OF OFFICIAL STATISTICAL AND OTHER INFORMATION RELATIVE TO CANADA.

The chief source of information on the current state of the country is the Dominion Bureau of Statistics, organized as the central statistical bureau for Canada, and described in the first part of this chapter; a list of its publications, which cover almost the whole field of the national statistics, is given in Section 1.

The second section of the chapter contains a list of the Acts of Parliament administered by the several departments of the Dominion Government, and the third section a bibliography of the publications of these departments. This is followed, in Section 4, by a bibliography of the publications of Provincial Governments.

### Section 1.—The Dominion Bureau of Statistics.\*

The Dominion Bureau of Statistics was set up by statute in 1918 as a central statistical department for Canada (8-9 Geo. V, c. 43)†. The Act was a consolidation of all previous statistical legislation and was based on the report of a Commission on Statistics, appointed in 1912, which recommended (a) a series of specific reforms and enlargements in Canadian statistics, and (b) a policy of statistical co-ordination for the Dominion, under central direction. In 1915, following the recommendations in this report, the office of Dominion Statistician was created.

The Bureau has been constituted by the transfer or absorption, by Orders in Council, of the following work and branches: (1) the Census and Statistics Office (covering the census, and also agriculture, general manufactures and criminal statistics), (2) Fisheries Statistics, (3) Mining Statistics, (4) Forestry Statistics, (5) Dairying and Fruit Statistics, (6) Water- and Electric-Power Statistics, (7) the Railways and Canals Statistical Branch of the Department of Railways and Canals, (8) the Trade Statistical Branch (exports and imports), (9) Grain Trade Statistics, (10) Live-Stock Statistics, (11) Prices Statistics, and (12) Employment Statistics. In addition four new branches were created, dealing respectively with Public Finance, Internal Trade, Vital Statistics, and Education. Subsequently the statistical activities of the Fuel Controller and the Board of Commerce were absorbed. Modifications of the Bankruptcy, Public Health and Railway Acts, and of the regulation *re* franking privileges were also made, with a view to facilitating the collection of statistics.

The Bureau has completed the plans for a unified, nation-wide statistical system, covering every important phase of social and economic activity, and has carried them out to a considerable degree.

The main achievement of the Bureau has been in the organization of the several subjects in correlation with each other in accordance with this general plan, and the consequent establishment of a comprehensive viewpoint of the country as a "going concern". In addition, there has been created what is frequently called a central "thinking office" in statistics, continuously in touch with general conditions and the line of probable developments.

\*A more complete account of the formation and activities of the Bureau of Statistics will be found on pp. 961-964 of the 1922-23 Year Book.

† Consolidated as the Statistics Act (c. 190, R.S.C., 1927).

The final concept in the organization of the Bureau of Statistics is that of a national laboratory for social and economic research. Statistics are not merely a record of what has been, but are for use in planning what shall be; it is the duty of a statistical bureau to assist directly in the day-to-day problems of administration, as well as to provide their theoretic background. One of the most significant of recent developments in administration is the extent to which statistical organization has been increased as a guide to national policy. Though its usefulness has only begun, the Dominion Bureau of Statistics has laid the foundations for a service comparable with the increasingly important position taken by Canada in the economic and political world.

**Publications of the Bureau.**—The first annual report of the Dominion Statistician contained a full description of the organization of the Bureau and of its subject matter.\* The main Branches of the Bureau are as follows: I. Administration; II. Population—Census and Vital Statistics; III. Agricultural Statistics; IV. Fisheries, Furs, Animal and Dairy Products; V. Mining, Metallurgical and Chemical; VI. Forestry and Allied Industries; VII. General Manufactures; VIII. External Trade (Imports and Exports); IX. Internal Trade; X. Transportation; XI. Financial Statistics; XII. Statistics of Administration of Justice; XIII. Education Statistics; XIV. General Statistics. The publications of the several Branches are as follows:—

**Dominion Fuel Board.**—The Dominion Fuel Board was created in 1922 primarily to instigate a thorough study of the underlying causes of recurring fuel shortages in Canada and of the methods by which they might be counteracted. It is composed of officers of

the Department of Mines and of the Interior and the co-operation of both Departments is given to the Board in its investigations. Partly as a result of the investigations and recommendations of the Board and of the publicity given to its findings, diversified sources of fuel supply have been developed and fuel shortages are no longer experienced. The Board has been instrumental in enabling Canadian coal to find markets in territory previously supplied from foreign sources. At the present time the work of the Board covers continued investigation of the fuel situation in relation to Canada; the Board also administers the Domestic Fuel Act, and the Orders in Council providing assistance to the coal industry. The following reports and publications have been issued: Interim Report of the Dominion Fuel Board (1923); Central and District Heating—Possibilities of Application in Canada, by F. A. **Mines.**—The scientific and investigatory work of the Department of Mines, which is chiefly concerned with the development of the Dominion's mineral industries, is carried on by the Department's four principal branches—the Bureau of Economic Geology (with which is associated the Geological Survey), the Mines Branch, the National Museum of Canada and the Explosives Division.

The Bureau of Economic Geology (and the associated Geological Survey) carries on areal and economic investigations and research work in geology and mineralogy; the Mines Branch carries on field, laboratory, and industrial investigations covering the various phases of the mining and metallurgical industries from the primary occurrence of the ores to the utilization of the finished products; the National Museum of Canada carries on scientific investigations in all branches of natural history; and the Explosives Division, under the provisions of the Explosives Act (R.S.C., 1927, c. 62) has supervision of the manufacture, testing, storage and importation of explosives and issues the licences and permits authorized by the Act.

The Department of Mines publishes an annual administrative report covering the activities of the whole Department, and occasional pamphlets illustrating the services rendered the mining and metallurgical industries. Each of the branches publishes annual reports in addition to memoirs and bulletins on special investigations and districts.

*Bureau of Economic Geology.*—The Geological Survey from 1842 to 1904 published annual volumes. From 1904 to 1910, upwards of 80 reports were issued, all separately. Since then the publications have consisted of memoirs and bulletins appearing at irregular intervals, an annual summary report and miscellaneous publications, including geological and topographical maps, geological guide books and handbooks. The subjects dealt with include areal and economic geology of particular districts, mineralogy, palæontology and related topics. In 1926 the first volume of a new Economic Geology Series was published, and further volumes of this series have since been issued. A list of the reports published by this branch may be obtained on application to the Director, Bureau of Economic Geology, Ottawa.

The National Museum of Canada has published a series of *Museum Bulletins* in many branches of natural history. A list of these may be obtained on application to the Director, National Museum of Canada, Ottawa.

*The Mines Branch*, since its inception in 1908, has published annual summary reports covering the investigations of the Divisions of Mineral Resources, Ore Dressing and Metallurgy, Fuels and Fuel Testing, Ceramic and Road Materials and Chemistry. More detailed and comprehensive reports have also been published by this branch, dealing with the technology of most of the economic minerals of Canada. A list of the Mines Branch reports may be had on application to the Director, Mines Branch, Ottawa.

*The Explosives Division* has published annual reports since 1919 and a number of pamphlets on the proper care and handling of explosives. Copies may be obtained on application to the Chief Inspector of Explosives, Department of Mines, Ottawa.

The publications of the Department of Mines cover all phases of mining from preliminary explorations and surveys of unmapped territory through the mining, milling, smelting and refining of the ores to the marketing and utilization of the finished product. Most of these reports and maps may be obtained free of charge by those interested on application to the Deputy Minister of Mines, Ottawa, or to the Directors of the Branches concerned, whose addresses are given above. Many of these reports may be had in French translations.

## CHAPTER XXX.—THE ANNUAL REGISTER, 1932-33 AND 1934.

### Section 1.—Dominion Legislation, Fourth Session, Seventeenth Parliament, Oct. 6, 1932 to May 27, 1933.

**Finance and Taxation.**—Five Appropriation Acts were passed during the session, *viz.*, cc. 1, 11, 20, 22 and 55. C. 1, 23-24 Geo. V., granted the sum of \$1,534,957.08 towards defraying the several charges and expenses of the public service for the fiscal year ending Mar. 31, 1933, as set forth in the Schedule of the said Act. C. 11 granted the sum of \$54,380,349.93 towards defraying the several charges and expenses of the public service for the fiscal year ending Mar. 31, 1933, as set forth in the Schedule accompanying that legislation. C. 20 granted the sum of \$16,220,422.36 towards defraying the several charges and expenses of the public service for the fiscal year ending Mar. 31, 1934, being one-twelfth of the several items to be voted, set forth in the Estimates for the said year. C. 22 granted the sum of \$16,220,422.36 towards defraying the several charges and expenses of the public service for the fiscal year ending Mar. 31, 1934, being one-twelfth of the several items to be voted, set forth in the Estimates. C. 55 granted the sum of \$162,202,843.59 towards defraying the several charges and expenses of the public service for the fiscal year ending Mar. 31, 1934, being five-sixths of the items to be voted, set forth in Schedule A to the said Act. Two further sums of \$9,836,970.00 and \$2,087,964.56 were also granted for the aforesaid purpose, as detailed in Schedules B and C, respectively. This Act also authorized a Government loan of \$200,000,000 for public works and general purposes.

The purport of c. 12 is to give the Governor in Council power to suspend that section of the Dominion Notes Act which provides that Dominion notes shall be redeemable in gold.

The Bank Act is amended by c. 23 postponing for a year the responsibility which is placed upon Parliament to revise the Bank Act every ten years. The amendment continued the charters of the banks to July 1, 1934. The charters under the Quebec Savings Banks Act are similarly extended by c. 28.

C. 43 authorizes the raising by way of loans such sums of money as may be required, not to exceed \$750,000,000 for paying loans or obligations of Canada, and for purchasing and withdrawing from circulation unmatured securities of Canada, and for public works and general purposes.

**Income Tax.**—The purpose of c. 14 is to provide that Government servants resident outside of Canada be made liable for income tax. Also that when the assets or shares of a company, having undistributed income on hand at the end of 1929, are sold directly or through an intermediary to a company which issues shares, bonds, notes, or other like documents as fully paid up by capitalizing the said undistributed income, then on the redemption of such documents the company redeeming shall pay a tax of 4 p. c. on the amount of such document redeemed. That the time of filing information returns be advanced from Mar. 31, to the last day of February in each year. That the provisions of the said Act with respect to personal corporations be amended to make them more certain in their application. Section 10 of the amendments makes the Act retroactive in several of its features, and particularly the right of the Crown to collect taxes remaining unpaid through mistake, which is made retroactive to the date the Act came into force in 1917.

The special income tax of 10 p.c. levied on the salaries of the judiciary, of the commissioned officers of the Military, Naval and Air Forces, and of the R.C.M.P., is continued in force by c. 15 until Mar. 31, 1934. A further provision prescribes that any person liable to pay the said special tax may elect to be subject to the Salary Deduction Act in lieu thereof.

Income tax exemption is reduced by c. 41 to \$2,000 for married persons, widows or widowers with dependent child, and persons maintaining domestic establishments and supporting persons related by blood, marriage, or adoption. For all other persons the exemption provided is \$1,000. The exemption for a dependent child or grandchild is \$400 and for a dependent parent, grandparent, brother or sister is the actual amount expended up to \$400. A new schedule of rates is provided. Where a husband and wife each have a separate income in excess of \$1,000, they are each allowed an exemption of \$1,000. It abolishes the exemption of \$2,000 afforded corporations and joint stock companies and raises the tax to 12½ p.c. Such companies filing consolidated returns are made subject to a tax of 13½ p.c. on consolidated income. Corporations are exempted from additional tax in respect of incomes in excess of \$5,000. Additional tax of 5 p.c. is imposed on non-residents of Canada in respect of dividends received from Canadian debtors, and interest from Canadian debtors if payable solely in Canadian funds except from bonds of, or guaranteed by, the Dominion of Canada. Additional tax of 5 p.c. is imposed on residents of Canada, except municipalities or municipal or public bodies performing governmental functions, in respect of interest and dividends paid by Canadian debtors to such persons at a premium over par of Canadian funds. Provision is made that where the Minister decides that individual profits of a corporation are in excess of reasonable requirements he may notify the corporation of the amount considered excessive and charge shareholders on same. The property of private investment holding companies is taken out of the operations of s. 19 (1) of the Act as enacted by s. 4 of c. 24, 1930. Persons making payments to non-residents on account of rents or royalties shall deduct from every such payment in excess of an amount to be named by the Minister, 12½ p.c. In computing the amount of profits to be assessed, no deduction is allowed for carrying charges of property, the income from which is exempt, except to the extent that the said charges exceed the exempt income. When any salary, bonus, commission, or director's fee is excessive in the opinion of the Minister, it may be disallowed as an expense. Debtors paying interest on fully registered bonds or debentures are to make a return of interest so paid. An ownership certificate is to be completed before a bearer coupon or warrant is negotiated by or on behalf of a resident of Canada. Several penalty clauses were added to the Act.

*National Revenue.*—C. 6 is an Act to amend the Customs Tariff, Schedule A, implementing the Canada-United Kingdom Trade Agreement.

The power of the Governor in Council to authorize the Minister to fix the value for duty on goods imported into Canada, under such conditions as injuriously to affect the interests of producers or manufacturers, is withdrawn by c. 7 so far as goods coming under the British preference or any lower tariff is concerned.

C. 8 reduces the excise duty on spirits, when made from unmalted grain or sugar, from \$9 to \$7 per gallon; when made from malted grain, from \$9.02 to \$7 per gallon; when made from molasses syrup, from \$9.03 to \$7 per gallon. The period for which abatement is allowed, for shrinkage by evaporation while maturing, is extended to fifteen years. Excise duty on cigarettes made from raw leaf tobacco is reduced from \$6 to \$4 per thousand.

C. 37 gives the Governor in Council authority to determine, from time to time, in computing the value for duty on imports, the rate of exchange of currency of any country whose currency is depreciated. Where the amount paid for imported goods from a country with a depreciated currency is less than the value computed at the determined rate of exchange, a duty is added amounting to the difference. Where goods are imported when importer and exporter have joint ownership the transaction is to be regarded as a sale and the price fixed is to be the value of the goods in the currency of the export country converted into Canadian currency at the rate determined as above. Schedules A and C of the Act are also amended.

C. 38, a Customs Act amendment, defines "value for duty" and provides for the granting of special permission for lightening vessels on statutory holidays other than Sundays, etc., vests officers with boarding and searching powers, and authority to seize vessels engaged in smuggling or smuggled goods. Penalties in such cases are increased.

C. 40 amends the Excise Act as follows: Jurisdiction for trial of offender is transferred from county court judge to police or stipendiary magistrate or two justices of the peace. Penalties recovered under Act may be paid to the Commissioner, R.C.M.P., Ottawa, or any officer commanding a division of the R.C.M.P. A Schedule is substituted for present provision to indicate the amount of the bond necessary for a licence to carry on business of distiller. Excise duty is imposed on spirits as follows: on those of proof strength, \$7 per gallon, and so in proportion for greater or less strength and quantity. For spirits in medicine \$2.50 per gallon of proof strength. When spirits of not less than 50 p.c. over proof are sold to a university or scientific and research laboratory or hospital, a drawback of 99 p.c. may be granted under regulations prescribed by the Minister. For spirits from juices of native fruits, \$1 per gallon of proof strength. For perfume, \$1.50 per gallon of proof strength. Duty to be paid on spirits used by druggists, \$2.50 per gallon of proof strength. Spirits re-warehoused to be subject to the same abatement as if originally warehoused, but full warehousing not to exceed 15 years. The Governor in Council is given the right to make regulations for vatting, etc., of spirits and to provide an abatement of 1 p.c. of the quantity of spirits taken for such purpose. The Governor in Council may make regulations for the bottling of spirits in bond. Least quantity of spirits removable from distillery is reduced to five gallons. A penalty clause is provided for distilling without a licence, the minimum penalty being a fine or imprisonment, or both fine and imprisonment.

Under c. 50 notes of Canadian banks circulating in British possessions other than Canada are exempt from the tax imposed under s. 3 of the Special War Revenue Act to the amount required to pay tax levied by such possession. A purely mutual insurance company deriving not less than fifty p.c. of its net income from the insurance of farm property is exempt from the provisions of the Act. Cheques, postal notes and money orders issued to a producer for milk or cream, or eggs or poultry, to co-operative wool-growers for wool, and by municipalities for employment relief, are exempt from the stamp tax. Provides an excise tax on cheques, bills of exchange or promissory notes drawn out of Canada; 3 cents up to \$100 and 6 cents above that amount. The stamp tax on receipts for money paid by bank against a deposit to the recipient's credit is 3 cents up to \$100, and 6 cents over \$100. Stocks, bonds, etc., or participating interest therein capable of being sold are made liable to the tax on sale of stocks, etc., set forth in the Act and certain changes are made in the exemptions from this tax. The tax on express company money orders, Post Office

money orders, and travellers cheques is to apply on amounts under \$5. The tax on matches lowered on small packages. A tax of 2 cents is levied on each one hundred cigarette papers or fraction thereof. A tax of 4 cents is levied on each one hundred cigarette paper tubes or fraction thereof. Cigarette papers and cigarette paper tubes are to be imported and sold in packages. Cigarette papers and tubes are not to be taxed when exported. Ale, beer, porter, and stout exported in bond not taxable when landing certificate produced. Tax on sugar, etc., remitted when imported or bought in bond for further manufacture, but payable when later sold. A tax is imposed on the sugar content of goods imported. Price for sales tax not to include sales tax, but shall include other excise duties when goods sold in bond, and also taxes imposed by Part X and Part XII of the Act. Sales tax on imported goods to be on duty-paid value. Wholesaler who sells for a price less than the value computed under the Act is liable for difference. Current market value of raw furs may be determined by the Minister. Drawback of 90 p.c. of taxes imposed by Part XI of Act upon tires and rubber, etc., exported. Amendments are also made in regard to records and penalties for tampering with same, refunds, etc., and to the Schedules.

The annual salary of the Chairman of the Tariff Board is fixed at \$15,000, and those of the other two members at \$10,000, by c. 51. Pensions are provided as follows: for ten years service, annuity of one-fourth of annual salary received during such period; for less than ten and more than five years service annuity of one-fifth of annual salary received during such period. However, if member serves full ten years and is 64 years of age he may be granted annuity of one-half of annual salary.

**Agriculture.**—By the Hay and Straw Inspection Act (c. 26), the Minister of Agriculture is given power to make regulations respecting the quality of hay and straw, and to appoint inspectors and empower them to issue certificates of quality. Ss. 156-165 of Inspection and Sale Act are repealed.

**Civil Service.**—The Salary Deduction Act, 1933 (c. 19), extends salary deductions of 10 p.c. to Mar. 31, 1934. Deduction is also to apply to indemnities of members of Senate and House of Commons for the session which commenced Oct. 6, 1932. Income as reduced by said reduction is to be subject to income tax.

**External Affairs.**—By c. 39—The Extra-Territorial Act, 1933—Acts of the Dominion Parliament in force previous to the passing of the Statute of Westminster and purporting to have extra-territorial operation, are to be construed as if the Dominion Parliament had then had power to pass laws having such operation.

**Immigration and Colonization.**—C. 49 amends the Soldier Settlement Act; all interest charges for the year preceding standard date in 1932 are remitted, or applied on principal where already paid. This, however, does not, except under certain conditions, apply to payments in respect of contracts dated Aug. 20, 1924, made under agreement between the United Kingdom and the Dominion. Any payments made between Mar. 31, 1933, and Mar. 31, 1936, for arrears or instalments due, or due within one year thereafter, are to be accepted for double the amount so paid. This credit is not accorded in respect to money, the proceeds of alienation, fire insurance, or payment under agreement for sale. After Mar. 31, 1933, the Director is to release title to equipment under certain conditions.

**Indian Affairs.**—C. 42 is an amendment to the Indian Act whereby members of the R.C.M.P. are to be truant officers on reserves. No Indian, or band, or irregular band of Indians is to sell cattle or other animals, or grains, root crops, or other produce from any reserve without the consent of the Indian Agent. The

Superintendent General is to determine where roads are to be on a reserve. Operations of hawkers, etc., are to be regulated by chiefs in council subject to confirmation by Governor in Council. Provision is made for Indians to be enfranchised without application on their part. Anyone found on a reserve who is unable to prove a legitimate reason for presence is liable to fine and imprisonment.

**Insurance.**—By c. 32, the Canadian and British Insurance Companies Act is amended to extend investments to include bonds or debentures secured by annual payment of Dominion Government.

**Interior.**—The Migratory Birds Act is amended by c. 16, providing for the deletion of provision for the printing of regulations in the prefix of the Dominion Statutes. Members of the R.C.M.P. are to be game officers.

**Justice.**—The Criminal Code is amended by c. 25; carrying of firearms without a permit is made an indictable offence and punishment increased to five years imprisonment. All other punishments in regard to firearms and dangerous weapons are made more severe.

The Penitentiary Act is amended by c. 27 whereby the Governor in Council is given power to appoint a Superintendent and three Inspectors of penitentiaries, wardens and other executive officers. The Superintendent is empowered on recommendation of a warden to appoint subordinate officers to serve in penitentiaries. All other employees of the Penitentiary Branch to continue under the Civil Service Commission. Changes in regard to gratuities to employees. Period of confinement of convict pending an appeal by the Attorney General or Council for the Crown to count as time served.

The Criminal Code is amended by c. 53 as follows: Definition of prize fight changed to exclude contests between amateurs with not less than five-ounce gloves, and contests held under authority of a Provincial Athletic Board. Signing and using false affidavits is made an indictable offence. Irrebuttable presumption created of corruption of child in own home when court is of opinion that conditions are such that child might be in danger of becoming immoral. Throwing of stench bombs, etc., in a place of usual resort is made an indictable offence, punishable by imprisonment of not less than two and not more than five years. Changes are made in procedure of appeals in Ontario; in provisions for summary trial with consent; Quebec and British Columbia are added to the provinces in which a grand jury indictment is not necessary. A change is also made in the provisions respecting when the time of sentence is to start for persons on bail or confined awaiting appeal; unconvicted persons are removed from the operation of said provisions.

The Exchequer Court Act is amended by c. 13 as regards: Writs of Habeas Corpus ad Subjiciendum, etc., in relation to any officer or man of the Canadian Naval, Military or Air Force serving outside Canada, which are to be exclusively heard by the Exchequer Court. Any such writ is to be directed to the Minister of National Defence, who shall transmit terms of same to the appropriate authority who shall comply therewith.

By c. 29, amending the R.C.M.P. Act, all money earned by a member of the Force over and above his salary is to be paid to the Minister, except when the Minister otherwise directs. All N.C.O.'s and men of the Force are subject to reduction in rank. The Governor in Council may determine the amount of allowances for purposes of pension.

**Labour.**—The Relief Act, 1933 (c. 18), enacted for a period of one year, gives power to the Governor in Council to make agreements with provinces respecting relief measures therein; to take all means deemed advisable to maintain peace, order and good government; to protect the financial position of the Dominion or any province; to provide special relief works in National Parks; to assist in sale and distribution of products. Moneys for direct relief not to exceed \$20,000,000.

**Marine.**—C. 52 provides that the Minister may delegate duties as pilotage authority. Governor in Council to appoint inspectors of ships' tackle, who are also to supervise loading and unloading of ships. Governor in Council may make regulations for protection against accident in loading and unloading ships. Inspectors may order loading or unloading of ships to cease if employee is exposed to undue risk. Weight of packages of 2,240 pounds or over, consigned to be loaded on any ship, is to be marked. Governor in Council may make regulations regarding manner in which cargo is carried. No goods are to be carried from one port to another in Canada, either directly or by way of a foreign port, or for any part of the transportation, in other than British ships.

The Radio Broadcasting Act is amended by c. 35 which provides that appointments and salaries of technical and other officers are to be made by the Radio Commission, and those of other employees pursuant to the Civil Service Act. The acquisition and construction of stations are to be approved by Governor in Council instead of by Parliament. Moneys received by the Commission as well as moneys appropriated by Parliament may be expended by the Commission.

**Parliamentary Representation.**—Under the Representation Act, 1933 (c. 54 of the Statutes), The House of Commons is to consist of 245 members as follows: Ontario 82, Quebec 65, Nova Scotia 12, New Brunswick 10, Manitoba 17, British Columbia 16, Prince Edward Island 4, Saskatchewan 21, Alberta 17, Yukon Territory 1. Schedule A describes the new electoral districts. This Act takes effect upon the dissolution of the present Parliament.

**Pensions and National Health.**—The Pensions Act was amended by c. 45: The Board of Pension Commissioners and Pension Tribunals are abolished and the Canadian Pension Commission substituted. The commission is to consist of from 8 to 12 members at the discretion of Governor in Council. The Pension Appeal Court is continued. A Reviewing Officer is appointed with duty of deciding whether an appeal should be made on behalf of the Crown. Details of administration of the Pensions Act are amended in several respects.

**Post Office.**—The Post Office Act was amended by c. 46, subjecting newspapers and periodicals, having more than 50 p.c. of space devoted to advertisements, to pay postage at the rate of 4 cents per pound or any fraction thereof.

**Railways.**—C. 33 of the Statutes does away with the Board of Directors of the C.N.R., and substitutes three trustees. It also sets up machinery for co-operation between the C.N.R. and the C.P.R. It specifically stipulates that nothing in the Act shall be deemed to authorize the amalgamation of the two great railways.

C. 34—the C.N.R. Financing Act, 1933—gives that company power to issue notes to cover expenditures made during 1933, where net income insufficient. Power is also vested in the Minister of Finance to make loans to the company out of the Consolidated Revenue of Canada.

C. 47 amends the Railway Act, giving to a company power to abandon any line of railway with approval of the Board of Railway Commissioners and forbids any company to abandon any line of railway without such approval.

**Trade.**—By cc. 2, 3, 4, and 5 the several Trade Agreements made between Canada and the United Kingdom, South Africa, the Irish Free State, and Southern Rhodesia at the Ottawa Imperial Economic Conference were respectively approved by the Dominion Parliament.

Cc. 9 and 24 are amendments to the Canada Grain Act. By c. 9, any change in tariff for the handling, etc., of grains in elevators during crop year is prohibited except by order of the Grain Commissioners. C. 24 gives the Grain Board power to make regulations requiring the registration and cancellation of Eastern warehouse receipts and transfer receipts; also to make regulations governing the discharge of grain from a licensed public or semi-public elevator at a sea port. Eastern elevators are brought under the operation of s. 126 of the Grain Act. When Western grain is in an Eastern elevator, transfer receipts shall be issued but these are not negotiable. Subject to the regulations of the Board, these transfer receipts are exchangeable for Eastern warehouse receipts upon surrender of the bill of lading. Eastern warehouse receipts are brought under s. 127 of the Grain Act. Eastern warehouse receipts and transfer receipts are brought under the operation of s. 128. Eastern elevators are brought under the operation of s. 129. An amendment is made to s. 135 of the Act, making it subject to the other parts of the Act.

C. 30 approves the Convention between Canada and France concerning the rights of nationals and commercial and shipping matters, set out in the Schedule. C. 31 approves the trade agreement between Canada and France set out in the Schedule thereto.

C. 36 provides a method whereby the creditors of a company may be brought into court and permitted by amicable agreement between themselves to arrange for a settlement of the debts of the company, allowing the business to be continued for the benefit of all concerned.

The Governor in Council is empowered by c. 44 to extend duration of Trade Agreement between Canada and New Zealand dated April 23, 1932.

**Miscellaneous.**—C. 10 gives power to the Montreal Harbour Commissioners to pass a by-law to prohibit entry of vessel into the harbour without permission, and to levy a tax for operating within the harbour.

Under c. 17 the Agreement of Mar. 30, 1920, with the city of Ottawa is extended for one year from July 1, 1932.

The Visiting Forces Act (c. 21) makes provision with respect to discipline, command, etc.

C. 48 provides that senators may be contractors for the loan of money to the Government after public competition.

## Section 2.—Dominion Legislation, Fifth Session, Seventeenth Parliament, Jan. 25 to July 3, 1934.\*

**Finance and Taxation.**—Five Appropriation Acts were passed during the session, *viz.*, cc. 1, 2, 16, 23 and 62. C. 1 grants the sum of \$30,073,471.87 towards defraying the expenses of the public service for the fiscal year ending Mar. 31, 1935, being one-sixth of the amount of the items to be voted, set forth in the Estimates for the said year. C. 2 grants the sum of \$52,661,304.36 towards defraying the expenses of the public service for the fiscal year ending Mar. 31, 1934, set forth

\*C. 44, the Canada Shipping Act, not having been proclaimed at the time of going to press, is not dealt with in this review.

in the Schedule thereto. C. 16 grants the sum of \$15,036,735.93 towards defraying the expenses of the public service for the fiscal year ending Mar. 31, 1935, being one-twelfth of the amount of the items set forth in the Estimates for the said year. Two further sums of \$2,237,789.69 and \$888,000.00 are granted for the aforesaid purpose, said sums being one-fourth of the amount of the items set forth in Schedule A, and one-fourth of the amount of the items set forth in Schedule B, respectively. C. 23 grants the sum of \$128,617,254.36 towards defraying the expenses of the public service for the fiscal year ending Mar. 31, 1935, being three-fourths of the amount of the items set forth in Schedule A thereto, excepting thereout one-half of the amount of the items set forth in Schedule B thereto. Two further sums of \$4,475,579.37 and \$2,664,000.00 are also granted for the aforesaid purpose, said sums being one-half of the amount of the items set forth in Schedule B, and three-fourths of the amount of the items set forth in Schedule C, respectively. This Act also authorizes a Government loan up to \$200,000,000 for public works and general purposes. C. 62 grants the sum of \$8,274,739.72 towards defraying the expenses of the public service for the fiscal year ending Mar. 31, 1935, set forth in the Schedule thereto.

C. 34 is an amendment to the Dominion Notes Act, raising the value of Dominion notes which may be issued on a 25 p.c. gold coverage from \$50,000,000 to \$120,000,000. Notes in excess of the latter figure are to be fully secured by gold. Silver purchased under the London Agreement of July, 1933, may be held as additional security. Provision is also made for repealing the Dominion Notes Act when the new Bank of Canada starts functioning, after which time all notes will be issued, except as provided by the Bank Act, under the authority of the Bank of Canada Act.

C. 30 makes provision for the repeal by proclamation of c. 4 of the Statutes of 1915, which provided for the issuance of \$26,000,000 of Dominion notes, and c. 35 similarly makes provision for the repeal of the Finance Act, which provides for advances of Dominion notes being made to the chartered banks on the strength of such approved securities as may be deposited with the Minister of Finance. These Acts will be superseded by the Bank of Canada Act, (See p. 963.)

*Income Tax.*—C. 19 continues the special income tax of 10 p.c. on the salaries of members of the judiciary, and the commissioned officers of the military, naval and air forces and R.C.M.P. for the fiscal year ending Mar. 31, 1935. C. 55 amends the Income War Tax Act by adding rents, royalties, or other periodical receipts to the list of incomes taxable, particularized under clause 3. A company having assets and doing business solely outside of Canada is exempt from income tax only after making a return and paying a fee of \$100. Clergymen under certain conditions are given the same exemption as married men, *viz.*, \$2,000. Interest paid in respect of succession duties or inheritance taxes is exempted. A tax of 5 p.c. is imposed on non-resident parent companies in respect of interest paid by a subsidiary Canadian company, except when paid in currency other than Canadian by agreement dated prior to April, 1933. Income from estate or trust to pay 5 p.c. tax. Exemption of tax on dividends to non-resident parent company only applicable where shares owned by parent company have full voting rights, and this exemption to apply irrespective of amount of income derived by Canadian company from interest and dividends, provided same are paid by subsidiary company. Income accumulating in trust for unascertained persons is taxable as if such income were the income of a person other than a corporation, but exemptions provided under paragraphs c, d, e and i of s-s. 1 of s. 5 of the Act are not applicable. Income of deceased person payable periodically is deemed to have accrued by equal daily increment and that portion accrued to the date of death is to be taxed. Dividends received by an

estate or trust and capitalized, to be taxed. Money spent on maintenance of an estate in accordance with terms of a will or trust is to be taxed if in excess of amount prescribed by the Minister. Where a corporation is redeeming shares at a premium the tax to be paid on such premium. All distributions of property made on the winding up of an incorporated company are deemed to be dividends to the extent that the company has undistributed income on hand, except in the case of income received from British and foreign securities and interest-bearing securities of Canadian debtors by private investment holding companies, in which case the extent to which dividends are made up of income received from Canadian companies is set forth. When a Canadian company advances money to a non-resident company for a period of one year without interest, the Minister may determine the amount of interest deemed to have been received as income. The Governor in Council is given power to enter into reciprocal agreements with other countries to exempt their respective nationals from income tax. When a person transfers property to a minor under eighteen years of age he shall nevertheless pay tax on income derived from such property during the minority of such minor, and also afterwards unless the Minister is satisfied that the transfer was not made to evade tax. Some changes are made in the penalty clauses.

*National Revenue.*—C. 32 amends the Customs Tariff. "Proof" and "proof spirits" are re-defined. The *ad valorem* rate of duty on tea purchased in bond in the United Kingdom is not to include the custom duty payable on tea for consumption in the United Kingdom. Schedule A is extensively amended. C. 48 amends the Customs Act. Definition of "fair market" repealed. The Governor in Council may order that excise duties and taxes be disregarded. Penalty for entering a railway car carrying bonded goods is extended to breaking or abetting, or aiding in the breaking of locks on such cars. Signalling from ship or coast in aid of smuggling is a criminal offence punishable with fine and imprisonment. The onus of proof of innocent interest lies on the person making the signals. C. 49 amends the Customs Tariff by enacting that the Governor in Council may order that excise duties be disregarded in estimating the market value for the purpose of special duty when goods are entitled to free entry under the general tariff.

The Special War Revenue Act is amended by c. 42. Postal notes under one dollar are made subject to a stamp tax of 1 cent, and over one dollar to a 3 cent tax. The excise tax on cigarette paper tubes is reduced to 3 cents a hundred. The wholesale or retail dealer is to affix the stamp required if package of cigarette papers or cigarette paper tubes remain unstamped. The excise tax on ale, beer, porter, and stout is brought under the section providing that goods exported under regulations prescribed by the Minister are not to be subject to tax. The tax on sugar content of goods imported is reduced to 1 cent per pound upon sugar and sugar substitutes, and to  $\frac{1}{2}$  cent per lb. upon glucose or grape-sugar. The term "manufactured and produced in Canada" is to apply to any articles prepared for sale in Canada and the tax is to be levied upon the price the articles sold for in Canada. The tax on champagne and all other sparkling wines is reduced to seventy-five cents per gallon. The Minister is made sole judge as to whether goods are "partly manufactured goods" within meaning of s. 85. The current market value of furs is to be determined under regulations made by the Minister for the purpose of s. 86 of the Act. The excise tax of 3 p.c. on duty-paid value under s. 88 is reduced to  $1\frac{1}{2}$  p.c. on goods entering Canada under the British Preferential Tariff or under trade arrangements between Canada and other British countries. The drawback provided for by s. 94 of the Act is to include materials (not fuel or plant equipment) consumed in the

manufacture or production of any goods exported. The penalty for refusing to pay tax imposed by Parts IV to XIII is made additional to any other penalty prescribed by the Act. The penalty for contravening any requirements of Parts IV to XIII or any regulations of the Minister is limited to contraventions for which no other penalty is provided. The authority of an "officer" to make inquiries extends to the whole Act. A person collecting money on behalf of the Crown, who collects in excess of the required sums, is to pay that excess to the Crown and is liable to a penalty of \$500. Prosecutions under the Act are to be commenced within three years from the time the cause of suit arose. A new Part (XV) is added to the Act, imposing a tax on gold producers. (See p. 395.) The remaining amendments are changes in the Schedules to the Special War Revenue Act.

C. 52 is an Act to amend and consolidate the Excise Act. The amendments make four important changes. First, the existing duty on malt is increased. This is done in conjunction with the repeal of the gallonage tax on beer imposed by the Special War Revenue Act, the effect being to lower the tax on beer. Second, the cost of home-brewed beer is similarly lowered by making the tax imposed on malt syrup a duty of excise while at the same time repealing the tax imposed on malt syrup by the Special War Revenue Act. Third, a Schedule of excise duties is appended for purposes of reference. Fourth, whenever any vehicle is seized or forfeited, anyone claiming an interest in same may within thirty days after seizure apply to any Judge of a Superior Court or the Exchequer Court for an order declaring his interest. This expedites the procedure and reduces the expense of obtaining redress.

**Agriculture.**—The Natural Products Marketing Act, c. 57 of the Statutes, sets up a Dominion Marketing Board, the members of which are to be appointed by, and to hold office during the pleasure of, the Governor in Council. The Board is given power over the marketing of those natural products which may be regulated under the Act, and also the power to prohibit marketing. It may exempt a person from its order, conduct a pool to equalize returns, give compensation for loss, assist by means of grants, provide for licence, require information, and co-operate with a provincial board. Upon the petition of a representative number of persons engaged in the production of a commodity, a local board may be created to regulate the said commodity under the supervision of the Board. The scheme will only be adopted if the principal market for the product is outside the province of production or if some part of the product may be exported. The procedure of adopting or revoking schemes under the Act is laid down. The Minister may authorize investigations into cost of production, wages, etc., in relation to production, etc., of natural products. Persons receiving a spread, detrimental to the interests of the public, or which is excessive, are liable to a fine not exceeding \$5,000 or two years imprisonment, or if a corporation to a fine not exceeding \$10,000. Whenever an investigating committee is satisfied that an offence has been committed, it is to remit evidence to Attorney General of the province within which the offence was committed. If such Attorney General does not take action within three months, the Attorney General of Canada may do so. The last section of the Act provides that if it is found that any provision of the Act is *ultra vires* that none of the other provisions of the Act are therefore to be inoperative or *ultra vires*.

C. 12 amends the Dairy Industry Act. The definitions are extended to include "dairy produce" and "dairy product" and the definition of "fats" is amended to include mineral fats as well as animal and vegetable fats. The Governor in Council is given the right to make regulations for the prescribing of standards for dairy products. A new subsection is added to s. 6, which makes it illegal to manu-

facture, or offer, sell or have, etc., any dairy product contrary to the provisions of Part I of the Act and regulations made thereunder. The clause prohibiting the placing of a foreign substance in cheese is extended to include all dairy products. The whole of Part II of the Act, dealing with the grading of dairy produce, is repealed and a new Part II substituted therefor.

C. 13 amends the Destructive Insect and Pest Act to make it clear that a province is free to make laws *re* insects and pests so long as such regulations are not repugnant to Dominion legislation on this subject.

C. 18 repeals the Fruit Act and substitutes in its stead a new Act entitled the Fruit and Honey Act. The most important change takes the definitions of grades, markings, etc., out of the Act, and gives to the Minister the right to make regulations thereon. There are thirteen sections defining offences in regard to grading, packing, etc. Varying penalties are imposed for infractions of the Act. Part III of the Act provides for the establishment of classes and grades, for boxing for both export and interprovincial trade, by regulations made by the Minister.

C. 20 amends the Live Stock and Live Stock Products Act. The "exporter" is defined as the owner of live stock or live-stock products shipped out of Canada, and the "exporting agent" as any person who, on behalf of the owner, ships live stock or live-stock products out of Canada. The Minister may, by notice in writing, forbid the shipping of cattle to Great Britain by an exporter or exporting agent unless a licence has been obtained. The necessity of being so licensed only arises upon notification by the Minister prohibiting shipping without a licence. The Minister is given the right to make regulations prescribing the manner in which operators of "public commercial vehicles" are to guarantee the proper return of proceeds to the owners of live stock or live-stock products. Regulations may also be so made regarding the manner in which a purchaser shall record receipts, etc., made at assembling points and abattoirs, and such records shall be made available to the Minister. If any live-stock exchange fails to comply with a requirement of the Minister in regard to the record of such receipts, etc., for a period of thirty days, the Minister may order the exchange to discontinue operations, in which event the business of the exchange will carry on under the direct authority of the Minister. No moneys are to be paid out of the "shippers' trust account" except in accordance with regulations approved by the Minister. The bank is specifically stated to have no responsibility in regard to the "shippers' trust account".

C. 26 amends the Canada Grain Act so as to exclude Garnet wheat from Grade No. 2 Manitoba Northern, and provides that this grade will consist of "Marquis or equal to Marquis". Garnet is given a separate grading as "No. 1. C.W. Garnet", and "No. 2. C.W. Garnet". Transfer receipts are to be issued by an Eastern elevator at an ocean terminal point for local delivery or export, but such receipts are not to be negotiable. In the Eastern Inspection Division an elevator may, if a transfer certificate has been issued and registered according to any regulations which may be current, discharge grain for shipment on surrender of receipt or bill of lading.

C. 46 is cited as the Canadian Farm Loan Act Amendment Act. The Farm Loan Board is given authority to pay local taxes on real estate; to accept additional security for loans; to make composition, extension of time, or scheme of arrangement with borrower; to make advances to borrowers for seed, fodder, fertilizer or harvesting expenses. The certificate of the Commissioner printed on every farm loan bond is changed to read that the Board holds "mortgages or charges on farm lands, and personalty". It previously read "mortgages on farm lands". The

maximum loan to be made under the Act is reduced from \$10,000 to \$7,500. Mortgages are subject to the law of the province in which the land is situated. If under mortgage sales proceedings, an amount insufficient to discharge the secured debt is realized, the stock in the Board held by the borrower is cancelled and the amount paid thereon forfeited to the Board. The amount of bonds the Minister may purchase is increased from fifteen million to forty million dollars. Such bonds are to be repurchased only at the request of the Minister. The Governor in Council may authorize the guarantee of the principal and interest of Farm Loan Boards up to thirty million dollars. Several new provisions in regard to farm loans are added by Part II, which deals with supplementary advances by the Board. A farmer who has already given a first mortgage to the Board is to make a further loan by giving to the Board a second mortgage. This second loan is to be made for a period of not more than six years, repayable on such terms as the Board may determine. The security is to be a mortgage on the farm lands, and a charge on live stock and other personal property. The aggregate of loans made to any one borrower under this Amendment Act and the Canadian Farm Loan Act is not to exceed two-thirds of the appraised value of the land and buildings, and is not to exceed at any time \$7,500, and the amount advanced under this Part is not to exceed half the amount secured by the first mortgage. The purpose of the second loan is to enable the farmer to pay existing debts, to buy necessary equipment, to make permanent improvements, and for such other purposes as the Board approves. A mortgagee under the Act is defined and stipulations regarding: rate of interest; procedure in case of composition, etc., under the Farmers' Creditors Arrangement Act, 1934; extension of time for repayment, etc., are made. Money for loans may be provided out of the Consolidated Revenue Fund.

C. 53 is the Farmers' Creditors Arrangement Act, 1934. The purpose of this Act is to provide a means whereby arrangements may be effected of debts of farmers who are unable to pay, and thus retain the farmers on the land as efficient producers. Under the Act a farmer unable to meet his liabilities may make a proposal for a scheme of arrangement. This proposal is filed with the Official Receiver appointed under the Act, who will convene a meeting of creditors. When a proposal is not approved by the creditors it may be referred to the Board of Review, appointed under the Act, which Board shall formulate a proposal. If this proposal is approved, it shall be binding on all, but if it is not approved, the Board may nevertheless confirm it, when it shall be binding. The Board may refuse to formulate a proposal where it considers no fair proposal can be formulated. When a proposal has been confirmed by the Board, Part I of the Bankruptcy Act shall thereafter apply to the farmer and a failure to carry out the proposal will constitute an act of bankruptcy on his part. S. 17 of the Act provides that when the interest rate in any mortgage exceeds 7 p.c., the person liable to pay the mortgage may pay the principal and interest owing to date together with three months further interest, and thereafter no interest will be recoverable at any rate in excess of 5 p.c.

**Banks and Banking.**—C. 24 is the Bank Act. It renews the charters of the ten chartered banks for ten years to July 1, 1944. La Banque Provinciale du Canada and Banque Canadienne Nationale may do business under the respective names: "The Provincial Bank of Canada" and "National Canadian Bank". The Act does not apply to the new Bank of Canada, except as it is specially mentioned in the Act. The chartered banks are required to maintain with the Bank of Canada at least 5 p.c. of their deposit liabilities within Canada. This reserve is to be in Bank of Canada notes and deposits in the Bank of Canada. After the commence-

ment of business by the Bank of Canada, the maximum amount of notes of a chartered bank shall not exceed the amount of its paid-up capital. This maximum amount will be reduced annually by 5 p.c. for a period of five years commencing Jan. 1, 1936, and by 10 p.c. for a period of five years commencing Jan. 1, 1941. Chartered banks are not allowed to charge a higher rate of interest or discount than 7 p.c.; penalties are to be enforced for violation of the Act in this respect. As the note-issuing privilege of a chartered bank is withdrawn, the liability of a shareholder in the bank shall not exceed that proportion of the par value of the shares held by him which the amount of notes which the bank is authorized to have in circulation in Canada bears to the paid-up capital of the bank. Slight changes are made in the monthly statement of assets and liabilities.

C. 43, the Bank of Canada Act, is an Act to incorporate the Bank of Canada, and provides for the establishment in Canada of a central bank. The gist of this legislation is given on p. 963.

C. 39 renews the charters of the Montreal City and District Savings Bank and of La Caisse d'Economie de Notre-Dame de Québec and enacts that they shall remain in force until July 1, 1944. It also amends the Quebec Savings Bank Act as follows: Publication of notice may be by publication each week in a weekly newspaper, or once a week in a newspaper published more frequently. The limitation on the amount which may be deposited by any persons not by the laws of the province authorized to make such a deposit is repealed. A garnishee order only attaches money to the credit of the debtor at the branch where it is served. The bank shall always hold at least 20 p.c. of the moneys deposited with it on deposit in chartered banks in Canada, or in the Bank of Canada. The Bank of Canada is added to the chartered banks as a place where deposits may be made by the bank. The Inspector General of Banks shall make an examination of the business of the bank at least once a year. Expenses of such examination to be paid out of the Consolidated Revenue Fund if appropriation therefor has been made and said Fund shall be recouped by assessment upon the banks. When a deposit is subject to a trust of which the bank has notice, the receipt or cheque of the person, or if two or more persons the receipt or cheque of all, or those of them entitled to receive under the document creating the trust, shall be a sufficient discharge of all concerned. Except only when lawfully claimed by other persons, the receipt or cheque of a person in whose name a deposit stands, or if it stands in the name of two persons the receipt or cheque of one, or if it stands in the name of more than two the receipt or cheque of the majority, shall be a sufficient discharge of all concerned. An annual return of shareholders is to be made within twenty days after the close of each calendar year. An annual return of unpaid dividends is to be as at the end of each calendar year. The person appointed by the Minister under s. 48 of this Act shall be deemed to be an officer of the bank within the meaning of s. 67. Bank of Canada notes are substituted for Dominion notes in s. 69. Item 2 of assets in the Schedule is amended to read "Cash in hand and on deposit in chartered banks, or in the Bank of Canada".

**Civil Service.**—C. 25 is the Translation Bureau Act. It establishes a Bureau for Translations under the Secretary of State, the function of which is to collaborate with all Government Departments and agencies in making translations from one language into another. All employees of the public service chiefly engaged as translators may be transferred to the Bureau. The Bureau is to be under the supervision of a Superintendent appointed under the Civil Service Act.

C. 22 is The Salary Deduction Act, 1934. It provides for the deduction of 10 p.c. from the compensation of members of the public service, except the Governor

General, the Lieutenant-Governors of the provinces, the members of the judiciary and of the Naval, Military and Air forces, and the R.C.M.P. Members of the Senate and the House of Commons are included as well as members of the commissions, etc., created by the Government, other than the C.N.R. A proviso, however, is added which provides that the Act shall not operate to reduce the compensation of any member of the public service below \$1,000 per annum, and further that such deductions shall not apply to any member whose compensation during such fiscal year is not more than \$1,000. The deduction applies to the indemnities of the Members of the Senate and the House of Commons only for the session which commenced Jan. 25, 1934. The basis of superannuation benefits is not reduced by this Act, nor is the gratuity or retiring allowance of a penitentiary employee. Payments under the Superannuation Act or the Superannuation and Retirement Act of an employee receiving not more than \$1,200, which compensation is subject to deduction, shall be paid out of the Consolidated Revenue Fund.

**External Affairs.**—C. 31 is the Admiralty Act, 1934. This Act does not come into force until promulgated by Order in Council and published in the *Canada Gazette*. It repeals and takes the place of the old Admiralty Act, c. 33, R.S.C., 1927, which latter Act derived its jurisdiction from the Acts concerning Admiralty passed by the United Kingdom Parliament. Thus Canada has taken over jurisdiction in admiralty in accordance with its new authority, defined by the Statute of Westminster and by the repeal of the Colonial Laws Validity Act. The Act is made to conform as far as possible to the Admiralty Court legislation of the United Kingdom, subject to such variations as are required in matters of purely local and domestic interest.

**Fisheries.**—C. 6 amends the Fisheries Act by providing that regulations respecting licences may be made under s. 34 of the Act, instead of under s. 33.

**Indian Affairs.**—C. 29 amends the Indian Act. Order in Council of July 12, 1906, provided that the division of the Caughnawaga Indian Reserve into sections be done away with. There was no statutory authority for this Order in Council and this Act validates all acts and proceedings pursuant to the said Order in Council. It furthermore grants to the Governor in Council the power to divide a reserve into sections, not to exceed six, or to provide that the reserve shall form one section, the wishes of the Indians being first ascertained.

**Insurance, Loan and Trust Companies.**—C. 27 amends the Canadian and British Insurance Companies Act. Its purpose is to secure to life insurance companies carrying on business in Canada the right to obtain licences from the Insurance Department. It, however, involves insurance companies other than life. The amendments make it clear that it is not intended to impinge on the exclusive jurisdiction of the Provincial Legislatures in regard to insurance, but that it is intended only to control insurance companies from the point of view of insolvency and bankruptcy, over which the Dominion Parliament has jurisdiction. It provides for the compulsory registration and licensing of Canadian and British companies, and for the voluntary registration of Canadian companies. C. 45 amends the same Act by adding a new paragraph regarding the investment of an insurance company's funds. C. 36 is an amendment to the Foreign Insurance Companies Act. It is really a companion Act to c. 47 above, and its object is to accomplish in regard to legislation about foreign insurance companies what c. 47 accomplishes in regard to legislation about Canadian and British insurance companies. C. 56 amends the

Loan Companies Act by providing that where any company under the Act in respect to loan or other transaction has imposed interest and other charges of any kind exclusive of fees disbursed for registration purposes, amounting to more than 2½ p.c., its charter may be forfeited on the order of the Governor in Council if it is a Dominion company, and that its Dominion powers may be terminated if it is other than a Dominion company.

**Justice.**—C. 8 and 40 amend the R.C.M.P. Act. Under c. 8 "Marine Section" is defined as the water transport and personnel. The term "member of the Force" includes a member of the Marine Section but "officer" does not include an officer in the Marine Section. The Governor in Council may appoint detective inspectors, sub-inspectors, and assistant veterinary surgeons, and also the personnel of the Marine Section. The Force is to have all powers, authority, protection and privileges which any constable has by law. The Force is not to be charged with duties under municipal by-laws except as authorized by the Governor in Council. It is made a statutory offence for a constable to disobey or strike any other member placed in authority over him, or for any constable having authority to oppress or tyrannize over any constable. Certain offences are more fully defined. Allowances are made to officers and constables for time served on a provincial police force, and changes are made in the pension allowances to widows and children of officers and constables under c. 8 as regards officers and under c. 40 as pertaining to constables.

C. 11 amends the Criminal Code in regard to horse racing by increasing the continuous running racing days from seven to fourteen. On any one race track there is not to be held, in one calendar year, more than two race meetings of seven days each at which there are running races.

C. 47 further amends the Criminal Code and deals specifically with: the carrying of firearms; the forfeiting of lottery prizes to the Crown; the extension of incestuous relationships to half-brothers and half-sisters; vehicles equipped for making smoke screens; and several other matters, including: summary trial for certain offences where the person charged gives consent; the disposal of certain charges of theft made before a magistrate in the Yukon Territory in a summary way; the procedure in the case of the summary trial of a corporation for an indictable offence, etc.

C. 21 amends the Oath of Allegiance Act. The oath of allegiance to be taken under the Naturalization Act is excepted from this Act, and the oath subscribed under this Act is greatly simplified and shortened. The Governor in Council is given power to require any person appointed to or holding office under the authority of the Parliament of Canada to take oath of allegiance, and also to take oath of office if said oath is not prescribed by existing law.

**Labour.**—C. 15 is the Relief Act of 1934, which expired on Mar. 31, 1935. Power is given the Governor in Council to make agreements with the provinces respecting relief; to grant financial assistance to any province and to the Canadian Co-operative Wheat Producers Limited; to take measures, when Parliament is not in session, for peace, order and good government; to take measures necessary to maintain the financial position of the Dominion or any province; to provide for relief works under the direction of the Department of the Interior and the Department of National Defence; and to take all such other measures for the carrying out of this Act.

C. 9 amends the Technical Education Act by extending the time during which the unexpended balance shall be carried forward another five years from Mar. 31, 1934.

**Marine.**—C. 60 provides that the Act to amend the Canadian Radio Broadcasting Act, 1932, is continued to April 30, 1935.

**Parliamentary Representation.**—All legislation in regard to the franchise of electors, the preparing of voters lists, and the conduct of elections has previously been contained in one Act entitled the Dominion Elections Act. This Act has now been repealed and legislation regarding the franchise of electors, and the preparing of the voters lists, is incorporated in a new Act entitled The Dominion Franchise Act, while legislation concerning the conduct of elections is contained in a new Act entitled the Dominion Elections Act.

C. 51 is the new Dominion Franchise Act. It makes provision for the appointment of a Franchise Commissioner (by resolution of the House of Commons) whose duty it will be to administer the Act, and to register electors. A Registrar of Electors will be appointed for each electoral district by the said Commissioner. Within six months from the time the Act comes into force the Commissioner is to name the date for a general registration by proclamation in the *Canada Gazette*, and the Registrars are to arrange for public notice of same in the post offices. Two enumerators are to be appointed for each polling division by the Registrars. One appointment is to be made on the nomination of the candidate who received the highest number of votes in the last election and the other on the nomination of the candidate who, representing an approved political interest, received the next highest number of votes. The duties of the enumerators and the manner in which lists shall be prepared and posted are detailed. The lists, made as described, are to form the basic lists of a system of annual revision of continuously existing lists of electors. Such revisions will be made by the Registrars commencing May 15 each year, and the Registrar shall for this purpose be a Court of Revision. Any voter may object to a name being put on or held off a list and a final appeal will be to a judge. Doukhobors who are disqualified from voting in British Columbia in provincial elections are also disqualified under this Act. C. 50 is the new Dominion Election Act. It conforms to the new Franchise Act, but otherwise no fundamental changes are made.

C. 61 amends the Representation Act, 1933, providing that it shall be deemed to be in force for the purpose only of authorizing and enabling the appointment of returning officers pursuant to the Dominion Elections Act, 1934.

**Pensions, Soldier Settlement and Health.**—C. 58 amends the Pension Act by providing for the appointment of a Superior Court judge as acting chairman of the Commission in the event of a vacancy in that office. C. 41 amends the Soldier Settlement Act. Land is deemed to be held by the Director of Soldier Settlement as a corporation sole and not an agent of the Crown when assessment has been made for taxes since Jan. 1, 1933. When land held by the Director is sold for taxes, the agreement for sale is rescinded, but the settler may redeem.

**Public Works.**—C. 59 is the Public Works Construction Act, 1934. Its purpose is to provide for the construction of public works for the general advancement of the country; to accelerate recovery to more normal conditions; and to increase employment and reduce expenditures for relief purposes. The Governor in Council is given power to do all things necessary to complete the works mentioned in Schedule A of the Act. The aggregate amount of the works mentioned in the said Schedule is \$39,690,050.

**Railways.**—C. 3 appoints auditors for the year 1934 to make a continuous audit, under the provisions of s. 13 of the Canadian National-Canadian Pacific Act, 1933, of the accounts of the national railways.

C. 4 ratifies an agreement made between the Canadian Northern Ontario Railway, and the Campbellford, Lake Ontario and Western Railway dated May 1, 1912. C. 5 ratifies an agreement between the C.P.R. and the C.N.R. respecting the joint use by the C.P.R. of certain tracks and premises of the C.N.R. at Saint John, N.B. C. 10 ratifies an agreement between the Transcontinental Railway and the C.P.R. respecting the joint use, by the Transcontinental, of C.P.R. tracks and premises at Quebec. C. 28 is the C.N.R. Financing Act, 1934. It authorizes the provision of moneys to meet expenditures and indebtedness incurred during 1934.

**Trade.**—C. 17 amends the Bills of Exchange Act in two particulars. The name of Armistice Day is changed to Remembrance Day in the list of legal holidays, and the civic holiday of any city, town, municipality or other organized district is made a legal holiday.

The Companies Act, 1934, enacted as 24-25 George V, c. 33, comprises seven parts. Part I regulates the incorporation of companies having share capital by letters patent issued under the seal of the Secretary of State. Part II affords facilities for the creation and organization of corporations without share capital and without purpose of gain. Part III comprises regulations applicable to companies incorporated by Special Act of Parliament. Part IV deals with British and foreign mining companies. Part V confers upon corporate bodies, created otherwise than by letters patent, power to establish pension funds and the like. Part VI declares the law whereby companies are recognized as having authority to maintain share registration and transfer offices, either within or without Canada. Part VII repeals the earlier Companies Acts and amending Acts and provides for the coming into force of the new Act on a date to be proclaimed. A proclamation was issued bringing the Companies Act, 1934, into force and effect in its entirety on Oct. 1, 1934. Significant changes in Part I are included in the sections dealing with the issue of prospectuses and the preparation of accounts and submission of balance sheets and statements at annual meetings of shareholders. With respect to each of these subjects, provision is made for much more complete disclosure of relevant information than was previously prescribed. Door-to-door canvass for subscriptions for shares is forbidden. Shareholders and bondholders are given the right to a copy of each balance sheet and financial statement laid before the annual meeting. Preferred stock without nominal or par value with preference as to principal or subject to redemption is no longer permitted. It will no longer be necessary for a company which does not issue a prospectus to file with the Secretary of State a statement in lieu of prospectus before proceeding to the first allotment of shares.

C. 38 amends the Meat and Canned Foods Act in respect of the seizure of canned fish and shellfish when the cans are falsely marked. Before the amendment the cans could not be seized before they were offered for retail sale, and could therefore be exported while wrongly marked. By virtue of the amendment they can now be seized at any time. Under the amendment such cans are confiscated to the Crown by two justices of the peace or a magistrate having the powers of two justices, but only after proof that the wrong marking was intended to deceive.

C. 54 amends the Food and Drugs Act by enumerating, as Schedule A, certain diseases and prescribing that no person shall import, offer for sale, or sell any remedy represented by label or advertisement to the general public as a treatment for the

said diseases. Provision is further made giving the Minister the power to add to or remove diseases from the list. The Minister is also empowered to add or remove material from Schedule B to the Act. The importations, sale, etc., of compound vinegar, vinegar or substitute for vinegar is also prohibited. Acetic acid found in the possession of a food products manufacturer is liable to seizure and the manufacturer to fine and imprisonment, and the acetic acid shall be forfeited to the Crown.

C. 14 amends the Precious Metals Marking Act by consolidating and revising the Act as it stands at present for the purpose of bringing it into harmony with the changed conditions in the particular trades and branches of business affected by the Act. It does not introduce any radical changes.

**Miscellaneous.**—C. 37 amends the Inquiries Act by adding to it a new part entitled Part IV. This gives to the Governor in Council the right to confer upon an International Commission all the power which may be conferred upon commissioners under Part I of the Act. Such powers are to be exercised in Canada subject to such limitations as the Governor in Council may impose.

C. 7 extends the agreement between His Majesty the King and the city of Ottawa, dated Mar. 30, 1920, for a period of one year from July 1, 1933.

### Section 3.—Provincial Legislation.

A list of the public Acts of the Provincial Legislatures usually appears at this place in the Year Book. In order to conserve space, it has been decided to refer the reader to the different provincial authorities for information in this connection. It is felt that whatever is lost to those readers who are interested in having all provincial legislation brought together and listed under one head, is more than offset by the information of more general interest which it has been possible to include in the limited space available, but which would otherwise have had to be omitted.

### Section 4.—Principal Events of the Year.

#### Subsection 1.—The Economic and Financial Years 1933-1934.

The great depression which had since 1929 involved the whole world in deepening gloom reached its lowest point in North America in the first quarter of 1933. Canadian industrial production was at its minimum for the post-war period in February, and that of the United States in March. Improvement, at first seasonal, but later on more than seasonal, commenced with the advent of spring, continued throughout the summer, and persisted in the autumn when the normal trend of activity in Canada is downward. There were comparatively small declines in employment even in the winter of 1933-34, and improvement was resumed in the spring of 1934 and continued, though at a slower rate, throughout that year. The general gain in activity is shown in the diagram on p. 829, indicating the fluctuations in employment.

The resumption of activity in the spring and summer of 1933, considerable though it was, was not sufficient to prevent that year from being the lowest of the depression. Thus the general index number of employment, which had averaged only 87.5 p.c. of the 1926 base in 1932, fell further to 83.4 on the average of 1933, but rose substantially to 96.0 in 1934. Thus the last completed year, 1934, was distinctly better than either 1932 or 1933, although there was still considerable ground to be covered before a return to normal conditions could be considered as having been effected.

The general advance in 1934 as compared with 1933 is indicated in the chart on p. 1191. Practically all the figures for 1934 indicate improvement as compared with 1933. An outstanding feature of 1934 was the continued decline in interest rates on high-grade securities. Interest rates on Province of Ontario bonds declined from 119.8 p.c. of the 1926 average in January, 1932, to 76.2 p.c. of that average in December, 1934, as shown in the table on p. 879.

**Agriculture.**—The agricultural situation showed marked improvement in 1934, the total value of field crops in that year being estimated at \$544,974,600 as compared with \$453,598,000 in 1933 and \$452,526,900 in 1932. Thus the 1934 figure marks an increase of approximately 20 p.c. over either of the two preceding years and a larger increase over 1931. The aggregate value of farm live stock in Canada as in June, 1934, also showed a moderate increase over 1933.

**Manufacturing.**—The index of manufacturing production averaged 93.4 p.c. of the 1926 base in 1934 as compared with 79.9 in 1933, a gain of 16.9 p.c. The corresponding gain in the index of employment in manufacturing plants was 11.6 p.c. The gain was proportionately greater in the production of producers goods than of consumers goods, the former gaining 28 p.c. as compared with 1933 and the latter 9 p.c.

**Forestry.**—An active export trade was maintained in planks and boards, the outward movement being 1,367,603,000 feet, an advance of 34.4 p.c. over 1933 and a higher figure than in any year since 1930. Newsprint output showed a gain of 28.8 p.c. as compared with 1933. The 1934 output was the highest on record except for 1929.

**Mines.**—Mineral production of Canada in 1934 was valued at \$277,492,000, an increase of almost \$56,000,000 over 1933 and of \$86,000,000 over 1932. The value of the output of metals reached the highest point on record, both gold and base metals contributing to this result. The output of copper, of lead, of zinc and of nickel was the highest ever recorded, while coal production increased 16.7 p.c. over 1933.

**Hydro-Electric Power.**—The output of hydro-electric power in 1934 was 21,167,700,000 k.w.h., a gain of 20.6 p.c. over 1933 and of about 17 p.c. over 1930, the previous record year.

**Construction.**—While still at a low level, construction contracts awarded amounted to \$125,812,000 in 1934 as compared with \$97,290,000 in 1933, a gain of 29.3 p.c.

**External Trade.**—Canada's external trade in the calendar year 1934 showed considerable advance over the preceding year. Imports were valued at \$513,469,000 as compared with \$401,214,000 in 1933, an increase of 28.0 p.c. Domestic exports were \$652,887,000 in 1934 as compared with \$531,749,000 in 1933, a gain of 22.8 p.c. Exports of new gold are not included in this figure. If they had been, to the recorded favourable balance of \$146,434,000 (allowing for foreign exports) there would be added another \$90,982,000, being the excess of gold exported over gold imported.

**Transportation.**—Railway traffic showed considerable gain in 1934, the total car-loadings of revenue freight being about 2,325,000 cars as compared with 2,032,000 in 1933, a gain of 14.4 p.c. Both the Canadian National and the Canadian Pacific recorded gains averaging 10 to 11 p.c. in gross operating revenues in 1934 over 1933. Cargo tonnage at leading ports also showed an increase.

# THE ECONOMIC SITUATION OF CANADA

STATISTICS FOR THE YEAR 1934  
COMPARED WITH 1933

**Wholesale Prices.**—Wholesale prices were relatively steady during 1934 at about 72 p.c. of the 1926 average. These prices were substantially higher than the low point of 63.6 p.c. of the 1926 base reached in February, 1933.

**Bank Debits.**—The grand total of bank debits, *i.e.*, the grand total of cheques charged to individual accounts, at the thirty-two clearing centres of Canada in 1934 showed a gain of 9.6 p.c. over 1933, being \$32,867,000,000 as compared with \$29,981,000,000. (See p. 989.)

**Comparisons of Canadian Recovery with That of Other Countries.**—The recovery of the industrial production of Canada in 1934 as compared with 1933 is shown by the following statement to have been among the most rapid recorded by any of the countries which maintain indexes of industrial production. While the composition of this index varies so greatly as among the countries that it is impossible for any valid conclusion to be drawn from the relative figures for different countries, the percentage gain between 1933 and 1934 is of considerable interest, as is also the percentage of gain shown in the second statement indicating the degree of recovery in each country from the lowest point reached in 1933.

**Subsection 2.—Other Principal Events of 1933 and 1934.**

**Provincial General Elections.**—During the two years 1933 and 1934, general elections took place in four of the provinces. In 1933, general elections took place in Nova Scotia on Aug. 22, and in British Columbia on Nov. 2; the Liberals, under the respective leadership of A. L. Macdonald and T. D. Pattullo, were returned. On June 19, 1934, general elections took place in Ontario and Saskatchewan; the Liberals, under the respective leaderships of M. F. Hepburn and J. G. Gardiner, were returned.

**Celebration of Arrival of United Empire Loyalists.**—On May 18, 1933, the one-hundred-and-fiftieth anniversary of the arrival of the United Empire Loyalists at Saint John was celebrated in that city. The occasion was made a public holiday in New Brunswick and a message of congratulations was received from the King, while the Prime Minister of Canada, a descendant of the United Empire Loyalists, received the freedom of the city, reviewed military and naval units on parade, and was the principal speaker of the occasion.

**Centennial of the City of Toronto.**—On Mar. 6, 1934, there was celebrated the centennial completion of the first century of the existence of Toronto as a self-governing city. Greetings were received from different parts of the Empire. The Prime Minister of Canada and the Leader of the Opposition were present at the special centennial meeting of the City Council and the civic luncheon.

**Tercentenary of Three Rivers.**—On July 15, there commenced the celebration of the third centenary of the foundation of the city of Three Rivers by the *Sieur de Lavolette*. A monument to the founder was unveiled by the Lieutenant-Governor of Quebec and an historical pageant illustrating the history of the city was staged.

**Jacques Cartier Quatercentennial.**—The four-hundredth anniversary of the discovery of Canada by Jacques Cartier, sea-captain of St. Malo, was celebrated in August and early September. The Government of Canada invited the Governments of the United Kingdom, the French Republic and the United States to participate in the celebrations, and the following official delegates represented these countries: The United Kingdom—The Rt. Hon. H. A. L. Fisher, F.R.S., and Admiral of the Fleet Sir Roger Keyes, Bt., G.C.B., K.C.V.O.; The French Republic—M. P. E. Flandin, Minister of Public Works and M. S. Charlety, Rector of the University of Paris; the United States—The Hon. Warren D. Robbins and Admiral Wat Tyler Cluverius.

The official itinerary of the reception and celebration was as follows: Charlottetown, Aug. 24; Gaspé, Aug. 25-26; Quebec, Aug. 27-30; Trois Rivières, Aug. 30; Montreal, Aug. 31-Sept. 2; Ottawa, Sept. 2-3; Toronto, Sept. 4; Niagara, Sept. 5-6; Rochester, Sept. 6. The celebration centred at Gaspé, where the Prime Ministers of the Dominion and the province of Quebec, together with Cardinal Villeneuve, took part in the proceedings.

## APPENDIX II.

## Dairying Statistics.

The dairy industry is dealt with under the following headings: total milk production; butter and cheese; miscellaneous factory products; and finally, the total value of the dairy production of Canada. For the year 1934 preliminary estimates have been made which will be revised when annual returns are available.

**Total Milk Production.**—The data presented in Table 1 represent the quantities of dairy products expressed in terms of milk. The total milk production for 1934 is estimated at 16,295,952,700 lb., an increase of 247,227,800 lb. or 1.5 p.c. over the previous year. Creamery butter, dairy butter and miscellaneous products increased in quantity, while milk used for cheese making and for domestic and live-stock consumption declined.

<sup>1</sup>The data in this column for 1933 and 1934 include the ice cream made in specialized ice-cream plants and confectionery establishments.

**Butter and Cheese.**—The butter output of creameries in 1934 was 233,047,500 lb., a gain of 13,814,954 lb., or 6.3 p.c., over the previous year, and 7,092,254 lb., or 3.1 p.c., over the 1931 production, which was the largest amount previously recorded. Dairy butter increased 3,433,000 lb., or 3.2 p.c., to 109,918,000 lb. Butter reached its maximum exportation in the year ended June 30, 1933, when 34,128,944 lb. were exported. For the calendar year ended Dec. 31, 1934, the exports were 428,300 lb. and the imports were 2,875,562 lb. The apparent consumption of butter in 1934 is estimated at 335,029,401 lb., or 30.92 lb. per capita.

The quantity of factory cheese made in Canada during 1934 is estimated at 99,754,500 lb., a decrease of 11,391,993 lb. or 10·3 p.c. Cheese made on farms is estimated at 1,011,300 lb., an increase of 68,000 lb. The fact that greater quantities of milk were used for butter making and for the fluid milk trade in recent years has resulted in a significant reduction in cheese manufacturing. The decrease recorded between 1933 and 1934 was greater than that shown between 1932 and 1933, but the most outstanding decline occurred in 1927 and a lesser decline in 1929. In 1868 the quantity of cheese exported from Canada was 6,141,570 lb.; in 1904 it reached its maximum exportation of 233,980,716 lb. For the calendar year ended Dec. 31, 1934, the exports were 61,167,800 lb. The apparent consumption of cheese in 1934 was 39,410,147 lb. or 3·64 lb. per capita. It will be seen, therefore, that the domestic consumption represented only 39·1 p.c. of the total cheese production of the Dominion.

**Miscellaneous Factory Products.**—The production of condensed milk in Canada in 1934 is estimated at 8,916,000 lb. as compared with 9,899,331 lb. in the previous year. Evaporated milk increased from 53,420,684 lb. to 56,778,000 lb. The production of all concentrated whole-milk products amounted to 67,918,000 lb. in 1934 as compared with 64,608,304 lb. in 1933. The production of concentrated milk by-products amounted to 25,750,000 lb. in 1934, of which 16,576,000 lb. was skim-milk powder. In 1933 the production was 20,673,252 lb. Thus concentrated whole-milk products increased 5·1 p.c. and concentrated milk by-products increased 24·6 p.c. Ice cream made in factories in 1934 amounted to 4,444,000 gallons as compared with 4,066,209 gallons in 1933, an increase of 9·3 p.c.

**Total Value of Dairy Production.**—The value of all dairy products in 1934 is estimated at \$181,966,021 as compared with \$170,828,667 in 1933, an increase of 6.5 p.c. The value of the dairy production of Canada in 1934 was the highest since 1931 and shows an advance of \$22,891,888 or 14.4 p.c. over the low value recorded in 1932. All products increased in value except factory cheese. The prices of creamery butter during the first quarter of 1934 were higher than in the same period of the preceding year. The midsummer decline was about the same as usual, but as the season advanced butter prices closely paralleled those of the previous year. The value per lb. of creamery butter, as shown in Table 3, represents an average of 19.9 cents in 1934 and 19.8 cents in 1933. Total butter shows a value of \$63,933,300 in 1934, an increase of \$3,764,191 as compared with 1933, while total cheese was valued at \$9,932,921 in 1934, a decrease of \$1,289,084.
